Application No. 30638  
 Fourth Supplemental

O P I N I O N

By Decision No. 43372, dated October 4, 1949, on Application No. 30638, Asbury Rapid Transit System was granted a certificate of public convenience and necessity authorizing the establishment and operation of a service as a passenger stage corporation, as defined in Section 2 $\frac{1}{2}$  of the Public Utilities Act, for the transportation of passengers in the City of Burbank and in the community of North Hollywood. This authority was granted for a period of nine months in order to enable applicant and the City of Burbank to evaluate the service and, if desirable, to work out and make effective a franchise arrangement for the operation of this service.

By subsequent decisions this authority has been extended to and including May 1, 1952.

In the instant petition it is alleged that applicant and the City of Burbank have tentatively agreed on the basis for a franchise but another three months will be necessary to agree upon the refinements of said franchise and such enabling ordinance as may be required.

After careful consideration of this matter, we are of the opinion that the request is in the public interest and should be granted. No public hearing is necessary.

ORDER

Application as above entitled having been filed, the Commission being fully advised in the premises and hereby finding that public convenience and necessity so require,

IT IS ORDERED:

(1) That the authority granted to applicant in Decision No. 43372, dated October 4, 1949, on Application No. 30638 be extended to and including August 1, 1952, subject to all of the conditions contained in Decision No. 43372, supra.

(2) That applicant be, and it hereby is, authorized to deviate from the terms of General Order No. 79 to the extent necessary to enable it to supplement its tariff upon one day's notice to the Commission and to the public.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 29<sup>th</sup> day of April, 1952.
