Application No. 31378  
(First Supplemental)

FIRST SUPPLEMENTAL OPINION AND ORDER

Applicant holds city and highway contract carrier permits. It transports groceries and related articles for The Great Atlantic & Pacific Tea Company from the company's Los Angeles warehouse to its retail markets in southern California. By Decision No. 45797 of June 5, 1951, in this proceeding, it was authorized to deviate from the established minimum rates by classifying shipments on a fixed percentage basis in lieu of on the actual consist of the shipments and by observing other designated special bases for related services. The authority is scheduled to expire June 25, 1952. Permission is now sought to continue to deviate from the minimum rates for a further one-year period.

The verified supplemental application shows that in general the conditions surrounding the transportation in question which justified deviation from the minimum rates still obtain; that a test made of current shipments showed only a slight disparity between the actual classification percentages and those authorized by Decision No. 45797, supra; and that the authorized rates may reasonably be expected to result in profitable operations during the ensuing year.

In the circumstances, it appears that this is a matter in which a public hearing is not necessary and that the supplemental application should be granted. To prevent a lapse of applicant's authority the order will be made effective June 25, 1952.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that the expiration date of the authority granted by Decision No. 45797 of June 5, 1951, in this proceeding be and it is hereby extended to June 25, 1953, unless sooner changed or further extended by order of the Commission.

This order shall become effective June 25, 1952.

Dated at San Francisco, California, this 17th day of June, 1952.
