the service, rates, contracts, rules,
regulations, operations, practices,
or any of them, of E. G. Thompson,
doing business as Ben Lomond Redwood
Park Water Co., operating a public
utility water system in a subdivided
area located in the vicinity of City

California.

Case No. 5041

SECOND SUPPLEMENTAL ORDER

Decision No. 44871, in establishing rates for the above
water system, provided in part as follows:

"Summer residents who request service for eight
consecutive months only during the calendar year
payable yearly in advance before service is
rendered \$16.00

"SPECIAL CONDITIONS

1. Summer residents who desire water service in addition
to the four consecutive months' service that would be included
in the summer-resident annual minimum charge, may pay the
permanent resident annual minimum charge and thereby be
entitled to water service during every month of the year."

A review of the record in this proceeding clearly indi-
cating that the reference made under "Special Conditions 1" to four

months should have been eight months to be consistent with the rate established, and that said special conditions should be so corrected, and good cause appearing,

IT IS ORDERED that Special Conditions 1 of Schedule No. 2 of said Decision No. 44871 is hereby corrected to read as follows:

1. Summer residents who desire water service in addition to the eight consecutive months' service that would be included in the summer-resident annual minimum charge, may pay the permanent resident annual minimum charge and thereby be entitled to water service during every month of the year.

IT IS FURTHER ORDERED that in all other respects said decision shall remain in full force and effect.

The effective date of this order shall be the date hereof.
