Decision No. 47940

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
CALIFORNIA WATER & TELEPHONE COMPANY)
to increase rates for water service) Application No. 33106
in its Monterey Peninsula Division.)

FIRST SUPPLEMENTAL ORDER

Following the issuance of Decision No. 47906 on November 3, 1952 under the above-entitled application, a mathematical error was discovered in the rate spread computations for determining the level of rates under Schedule No. 1. It is apparent to the Commission that the rate levels presently specified will fall short of producing the authorized increase of \$195,000 annually by approximately \$15,000. This error may be corrected by increasing the initial charge by 5 cents per month and the second block rate by 1 cent per 100 cubic feet, from 37 cents to 38 cents. Good cause appearing; therefore,

IT IS ORDERED as follows:

1. Page 1 of Exhibit "A" under Decision No. 47906 is amended to show the rate for the 300 cu. ft. block under the quantity charge as \$1.85 in place of \$1.80, and the rate for the 700 cu. ft. block under the quantity charge as \$0.38 in place of \$0.37, and the minimum charge for 1/2, 5/8 x 3/4 or 3/4-inch meter as \$1.85 in place of \$1.80.
2. The authorized rates as shown on page 18 of the opinion part of said decision are amended to comply with the provisions of Paragraph 1 above.

3. In all other respects said Decision No. 47906 shall remain in full force and effect.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 18th day of November, 1952.
