Application No. 32326

In the Matter of the Application of
 PACIFIC MOTOR TRUCKING COMPANY for a
 certificate of public convenience and
 necessity authorizing transportation
 of property as a highway common
 carrier between Famosa and Lerdo
 and intermediate rail points, in lieu
 of existing certificate.

Application No. 32823

FIRST SUPPLEMENTAL ORDER

It appears that through inadvertence the first ordering paragraph on page 18 of Decision No. 47892, issued November 3, 1952, in the above-entitled proceeding, omitted authority to the applicant to transport property moving on the rates and billing of Railway Express Agency, Inc., and that such authority was requested in Application No. 32326.

IT IS ORDERED, therefore, that the first ordering paragraph on page 18 of Decision No. 47892, issued November 3, 1952, in the above-entitled proceeding, is amended to read as follows:

IT IS ORDERED that a certificate of public convenience and necessity be, and it hereby is, granted to Pacific Motor Trucking Company, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of less-carload property, except uncrated household goods and other commodities for which the Commission has prescribed minimum rates in Appendix "A", Decision No. 32325, City Carriers' Tariff No. 3 - Highway Carriers' Tariff No. 4, moving at the rates and on billing of Railway Express Agency, Inc., and/or the Southern Pacific Company, which is auxiliary to or supplemental of said service of Southern Pacific Company,

(1) Between Famosa and Lerdo and intermediate points which are rail stations on the line of the Southern Pacific Company, in lieu of the certificate granted in and by Decision No. 37850, over and along U. S. Highway 99, subject to the following conditions:

- (a) No through trucks shall be operated between points north of Fresno, on the one hand, and Los Angeles and points west, south and east thereof, on the other hand.
- (b) The operative right granted hereunder shall not be used in combination with any other operative right held by applicant to permit the operation of through service between points north of Fresno, on the one hand, and

Los Angeles and points west, south and east thereof, on the other hand, without first obtaining from this Commission a certificate of public convenience and necessity permitting such through operation.
