O P I N I O N

Southern California Edison Company, a corporation, seeks authority to exercise ll franchises granted by the following cities and counties authorizing the applicant, its successors and assigns, to construct, operate and maintain a system of pipe lines and appurtenances upon the public streets and highways of the counties and municipalities concerned:

<u>County</u>	<u>Ordinance No.</u>	<u>Date Adopted</u>
Los Angeles	6038	8-19-52
San Bernardino	691	4-14-52
Orange	629	5-27-52
Riverside	390	4-21-52
 <u>City</u>		
Brea	233	6- 2-52
Chino	256	6-17-52
Claremont	456	6-10-52
La Habra	164	6- 4-52
La Verne	17	6-16-52
Ontario	915	5- 5-52
Pomona	1236	6-24-52

The franchises referred to, copies of which are attached to the application, are designated as Exhibits "A" to "K", inclusive, and are each for a term of 50 years. A fee is payable annually to each city and county concerned of two per cent of the gross annual receipts of applicant arising from the use, operation or possession of the franchise.

A public hearing was held before Commissioner Huls and Examiner Syphers on March 12, 1953, at which time evidence was adduced and the matter submitted. At the hearing affidavits of publication were submitted showing publication of the notice of hearing in a newspaper of general circulation in each of the cities and counties involved.

The record shows that the costs to applicant of securing these franchises were as follows:

<u>Counties of</u>	<u>Ordinance No.</u>	<u>Cost</u>
Los Angeles	6038	\$1,160.21
Orange	629	670.44
Riverside	390	552.58
San Bernardino	691	590.87
 <u>Cities of</u>		
Brea	233	286.78
Chino	256	381.52
Claremont	456	278.61
La Habra	164	303.97
La Verne	17	336.04
Ontario	915	501.58
Pomona	1236	614.72

In each instance the costs include the cost of publication, bid, and ordinance. A statement attached to the application as Exhibit "L" sets out that applicant will not claim any value for any of the franchises herein concerned in excess of the cost thereof, as hereinabove indicated.

Exhibit "M" attached to the application is a copy of the resolution of the Board of Directors of the applicant company, adopted January 20, 1948, authorizing the application before the Public Utilities Commission. Exhibit "N" is a map of the areas concerned, showing the location of the pipe lines and the uses to which each will be put.

Under Decision No. 45387, dated February 27, 1951, in Application No. 32063, this applicant secured a certificate of public convenience and necessity authorizing the construction, operation and maintenance of a steam-electric generating station and appurtenant facilities in the vicinity of Etiwanda, California. This station has been constructed and the pipe lines are now needed to supply oil, petroleum and gas fuel to the steam-electric generating station and to carry away liquid industrial wastes.

Upon this record we find that public convenience and necessity require the exercise of the franchises as listed herein.

The authority herein granted is subject to the following provisions of law:

The Commission shall have no power to authorize the capitalization of the franchise or this certificate of public convenience and necessity or the right to own, operate or enjoy any such franchise or certificate of public convenience and necessity in excess of the amount (exclusive of any tax or annual charge) actually paid to the State or to a political subdivision thereof as the consideration for the grant of such franchise, certificate of public convenience and necessity or right.

O R D E R

Application as above entitled having been filed, public hearing having been held thereon, the matter having been submitted and the Commission hereby finding that public convenience and necessity so require,

IT IS ORDERED that Southern California Edison Company be and it hereby is authorized to exercise the rights and privileges granted by the following franchises:
