

ORIGINALDecision No. 48465

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 SOUTHERN CALIFORNIA GAS COMPANY for)
 a general increase in gas rates)
 under Section 454 of the Public)
 Utilities Code.)

Application No. 33700

ORDER GRANTING PETITION FOR
 TERMINATION OF PROCEEDINGS

On March 11, 1953 a petition for termination of proceedings on the above-entitled matter was filed by the following parties to this proceeding:

Southern California Gas Company
 California Farm Bureau Federation
 City of Los Angeles
 Pasadena-Glendale et al
 Exchange Orange Products Co.
 Secretary of Army and Government Agencies
 California Manufacturers Association

On December 11, 1952 the California Manufacturers Association filed a petition for rehearing of Decision No. 47992 in Application No. 33700. On December 19, 1952 the Commission issued Decision No. 48078, denying a rehearing and reopening Application No. 33700 for further hearing. According to the petition for termination of the instant proceeding, it now appears to the parties that the principle of appropriate assessment of demand component cost will be decided under another proceeding, Application No. 33341, and that to try such issue further in the instant proceeding would result in duplicate litigation; therefore

IT IS HEREBY ORDERED that the petition for termination of the proceeding under Application No. 33700 is granted and the

proceeding is terminated without prejudice in so far as the issue of appropriate assessment of demand component costs is concerned.

Dated at Los Angeles, California, this 7th day of April, 1953.
