Application No. 30638  
(7th Supplemental)

OPINION AND ORDER

By Decision No. 43372, dated October 4, 1949, the Commission granted a passenger stage certificate to Asbury Rapid Transit System authorizing the transportation of passengers over certain routes within the City of Burbank and the Community of North Hollywood. That certificate was granted for a period of only nine months and on six subsequent occasions has been extended the last of which (Decision No. 47868) was for a period of nine months to and including August 1, 1953.

By its seventh supplemental application filed July 21, 1953, applicant asks the Commission to authorize it to continue that service within the City of Burbank on a permanent basis or to extend the time within which applicant may continue to provide service on a temporary basis pending disposition of its request to make the authority permanent.

Under the circumstances we find that public convenience and necessity require that the service now conducted by applicant be continued on a temporary basis. A public hearing is not necessary.

Therefore, and good cause appearing,

IT IS ORDERED:

(1) That the authority granted to Asbury Rapid Transit System in Decision No. 43372, in Application No. 30638, is hereby extended to and including January 31, 1954, subject to all of the conditions contained in said Decision No. 43372.

(2) That applicant may deviate from the terms of the Commission's general orders necessary to file appropriate tariffs and timetables in triplicate and satisfactory to the Commission. Said tariffs and timetables shall be filed on not less than one day's notice to the Commission and the public.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 30th day of

July, 1953.
