<u>O P I N I O N</u>

By petition filed August 4, 1953, as amended, the Draymen's Association of Alameda County seeks increases ranging from 4.4 per cent to 9.0 per cent in the minimum rates and charges established for the transportation of property by city carriers and highway carriers within the East Bay drayage area.¹ It is proposed also to raise the

The East Bay drayage area is comprised of the cities of Alameda, Albany, Berkeley, Emeryville, Oakland and Piedmont.

pool car rates to the level of those applicable within the San Francisco drayage area and to apply an increase of 5 per cent to such rates.

A public hearing of the petition was held at San Francisco on August 21 and 31 and September 1, 1953, before Examiner Jacopi.

The present minimum rates, rules and regulations for the transportation of property within the East Bay drayage area are set forth in City Carriers' Tariff No. 2-A - Highway Carriers' Tariff No. 1-A.² By Decision No. 48187 of January 19, 1953, in Cases Nos. 4108 and 4109, the entire rate structure was revised and increased in accordance with extensive studies of operating conditions and the costs of performing the various services.

Petitioner alleges that since the close of the record forming the basis for the aforesaid rate adjustment the carriers have experienced substantial advances in operating expenses which have operated to render the existing minimum rates insufficient to return the costs of performing the services. Petitioner's executive secretary introduced evidence showing that the changes in the expenses consisted of (a) an increase of 1.5 cents per gallon in the price of gasoline effective during March 1953, (b) an increase of 1.5 cents per gallon in the State tax rate on gasoline effective July 1, 1953, (c) an increase of \$1.00 per day in the wages of drivers, helpers, platform men, mechanics and garage employees effective on dates ranging from June 10 to August 4, 1953, (d) an increase in the carriers' contributions to an employee health and welfare fund from the present rate of \$8.65 per employee per month to \$9.50 and (e) an increase of about one-third in vehicle

2

No change is proposed in parcel delivery rates named in Items Nos. 940, 950, 960, 990 and 995 series, in rail switching rates named in Item No. 1070 series, nor in the charges provided in rules set forth in Items Nos. 200 and 210 series, of the aforesaid tariff.

registration and weight fees effective July 1, 1953. According to the witness, an immediate upward adjustment of the East Bay drayage rates is needed to enable the carriers to meet the operating expenses.

Evidence relative to the impact of the higher expense levels upon the cost of performing East Bay drayage service was offered by a certified public accountant retained by petitioner and also by a transportation engineer of the Commission's staff. The engineer's studies included an exhibit reflecting a complete revision of a detailed cost study which he introduced at hearings in October 1952 and upon which the present minimum rates are based. With these revisions, the costs of performing the various operations involved in East Bay drayage service range from about; 4 per cent to 9 per cent higher than the costs developed when the previous adjustment of the drayage rates was made.

The chairman of petitioner's rate committee testified that the advances in operating expenses hereinabove discussed affected all of the carriers operating in the drayage area. Under present conditions, he said, the carriers are unable to absorb the added costs without impairment of the service to the public. A witness for one of the respondent carriers introduced substantially similar testimony.

The granting of the proposed increase in rates for the handling of pool cars was opposed by witnesses for two respondent carriers. According to their testimony, the sought adjustment would result in a widening of the existing differential between the minimum rates for handling pool cars and the lower interstate rates of a competitor. Retention of the pool car traffic now handled by their companies, the witnesses said, would be very difficult under such

-3-

conditions. They agreed that their companies had experienced the cost increases involved herein and that they needed additional revenue.

A representative of the Oakland Chamber of Commerce objected to any increase being granted in the truckload rates. He asserted that the proposed adjustment would result in a further widening of differences existing between the truckload rates within the East Bay drayage area and those applicable from or to points just outside the area. He urged that the Commission undertake to integrate the rates. It was pointed out, however, that the minimum rates named in Highway Carriers' Tariff No. 2 from or to points outside the drayage area also had been increased to about the same extent sought herein to offset advances in the same expense items and that little or no change in the aforesaid differences would result under the adjustments proposed herein.

It is clear from the record in this proceeding that the cost of performing the various services involved in East Bay drayage operations has increased since the minimum rates and charges last were adjusted. Petitioner's proposal in general is to raise the present minimum rates and charges to reflect the specific cost increases incurred. As exceptions, however, it seeks parity of pool car rates with the higher rates applicable in San Francisco as well as the adjustment for the cost increases and it proposes to make no change in parcel delivery rates which were established on a separate record nor in charges provided in two tariff rules for which the advances in costs are not determinable without further detailed study. The various specific increases in the other costs may be measured with reasonable accuracy and except for the pool car rates should be given effect in the minimum rates at the earliest practicable date in order to assure maintenance of adequate service to the public.

-4-

No change should be authorized in the pool car rates now applicable in the East Bay drayage area. This record does not provide the detailed comparative operating data and the various rate-making considerations involved in dealing with this problem. It is persuasive that petitioner should undertake to present complete evidence relative to these matters at the hearings to be scheduled on the separate petition it heretofore filed seeking a thorough review and modification of the existing pool car arrangements in the San Francisco Bay area.

Likewise, the question of integration of the rate structures is one which should be presented at the further hearings to be scheduled in Case No. 5441, at which the minimum rate levels to be observed within the 12-county area centered on San Francisco Bay will be considered. In the meantime, no action on the matter will be taken herein.

Common carriers filing tariffs with the Commission seek authority to establish the rate adjustments in their tariffs on less than statutory notice. They seek authority also to establish corresponding increases on commodities for which minimum rates for transportation within the East Bay drayage area have not been established but on which they have maintained rates on the minimum rate levels. The proposals appear to be reasonable and will be authorized.

Upon consideration of all of the facts and circumstances of record, the Commission is of the opinion and hereby finds that the proposed increases in the minimum rates have been justified to the extent indicated above and as provided in the order herein and that in all other respects petitioner's proposals have not been justified.

Based upon the evidence of record and upon the conclusions and findings set forth in the preceding opinion,

IT IS HEREBY ORDERED that City Carriers' Tariff No. 2-A -Highway Carriers' Tariff No. 1-A (Appendix "A" of Decision No.41362, as amended, in Cases Nos. 4108 and 4109), be and it is hereby further amended by incorporating therein the revised pages attached hereto and listed in Appendix "A" also attached hereto, which pages and appendix by this reference are made a part hereof.

IT IS HEREBY FURTHER ORDERED that tariff publications required or authorized to be made by common carriers as a result of the amendment herein of the aforesaid tariff may be made effective on or after the effective date hereof on not less than five days' notice to the Commission and to the public, but that this does not relieve common carriers from conforming with this order with respect to rates and charges by November 1, 1953; that said common carriers be and they are hereby authorized concurrently to establish corresponding increases in rates and charges on commodities for which minimum rates and charges within the East Bay drayage area have not been prescribed.

IT IS HEREBY FURTHER ORDERED that, except to the extent provided in the preceding ordering paragraphs, Petition for Modification No. 5, as amended, filed by the Draymen's Association of Alameda County, be and it is hereby denied.

This order shall become effective October 19, 1953. Dated at <u>Landisin</u>, California, this <u>29²⁴</u> day of <u>Contember</u>, 1953.

۰.,

SECTION NO. 1 - RULES AND REGULATIONS
(Continued)
APPLICATION OF RATES
Rates provided in this tariff are for the transporta- tion of shipments, as defined in Item No. 11 series, from point of origin to point of destination and include tailgate loading into and tailgate unloading from the carrier's equipment. (See Item No. 90 series.)
APPLICATION OF CURRENT CLASSIFICATION
(a) Except as otherwise provided, class rates in this tariff are subject to the ratings shown in the Carrent Classification. Rules, regulations and other provisions and conditions of the Current Classification, other than those specified in the item naming the rating, do not apply.
(b) Where the ratings are in conflict with those pro- vided in this tariff, the provisions of this tariff will apply.
(c) Commodity rates named in this tariff are governed by the Current Classification to the extent that commodity rate items make specific reference thereto.
ACCESSORIAL CHARGES
 (a) For pickup or delivery or for stacking, sorting of other accessorial service which is not authorized to be performed under the rates named in this tariff and for which a charge is not otherwise provided, an additional charge of \$3.42 per man per hour, minimum charge \$\$3.42, shall be made.
(b) When carrier is required to provide additional labor, at point of origin or point of destination, for the handling of articles or packages which, because of their weight or bulk, cannot be handled by one man, an additional charge of \$3.32 per man per hour, minimum charge \$3.32, shall be made.
ADVANCE CHARGES
All charges on shipments advanced by a carrier for the account of a shipper or consignee will be payable on demand of the carrier making the advance.
ALTERNATIVE APPLICATION OF COMMON CARRIER RATES
Common carrier rates may be applied in lieu of the rates provided in this tariff when such common carrier rates produce a lower aggregate charge for the same transportation between the same points of origin and destination, and for the same accessorial services, than results from the appli- cation of the rates herein provided.

Rates named in this tariff apply for service performed during regular working hours of 8:00 A.M. to 5:00 P.M.except Saturdays, Sundays and the following holidays: New Year's Day, Washington's Birthday, Decoration Day, Fourth of July, Labor Day, Admission Day, Thanksgiving Day, and Christmas Day. When such holidays fall on Sunday the following Monday shall be considered a holiday. For services performed at the request of the shipper or consignee at other than those hours and on Saturdays, Sundays or the holidays shown, an additional charge equal to the additional cost of overtime will be made.
