EIGHTH SUPPLEMENTAL OPINION AND ORDER

Prior orders in this proceeding authorized applicant to deviate from the established minimum rates in connection with transportation service performed for Sears, Roebuck and Company within the Los Angeles area and between that area and other southern California points. The authority is scheduled to expire April 27, 1954. Permission is sought to continue to deviate from the minimum rates for a further one-year period. Applicant proposes to observe rates generally higher than those previously authorized.

The supplemental application shows that, except for increased operating costs, the conditions surrounding the transportation in question which have justified deviation from the minimum rates still obtain; that the proposed increases in the rates would offset these higher costs and that operations under the proposed rates may reasonably be expected to be profitable during the ensuing year.

In the circumstances it appears that this is a matter in which a public hearing is not necessary and that the supplemental application should be granted.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that Decision No. 48462 of April 7, 1953, in this proceeding, be and it is hereby amended by substituting for Appendix "A" thereof Appendix "A-1" attached hereto and by this reference made a part hereof.

IT IS HEREBY FURTHER ORDERED that the expiration date of the authority granted by said Decision No. 48462, as amended herein, be and it is hereby extended to April 27, 1955, unless sooner canceled, changed or extended by order of the Commission.

This order shall become effective April 27, 1954.

Dated at San Francisco, California, this 6th day of April, 1954.
