Decision No. 50622

**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of )  
FARNSWORTH AND RUGGLES, a corporation, )  
for authority to depart from the rates, ) Application No. 33329  
rules and regulations of Highway ) (Second Supplemental)  
Carriers' Tariff No. 2 under the )  
provisions of the Highway Carriers' Act. )

THIRD SUPPLEMENTAL OPINION AND ORDER

Applicant transports iron and steel materials and related articles for Gilmore Steel and Supply Co., Inc., and for two of its affiliates. Service is provided within San Francisco and between San Francisco and points within a 150-mile radius of that city. Prior orders in this proceeding have authorized applicant to deviate from the minimum rates by applying monthly vehicle unit rates, ordinarily restricted to drayage operations, to both the intra-city and intercity service. The authority is scheduled to expire October 27, 1954. Permission is sought to continue to deviate from the minimum rates, with certain modifications, for a further one-year period.

The supplemental application shows that the conditions surrounding the transportation in question which justified deviation from the minimum rates still obtain. It also shows that the proposed rates are reasonable and that operations under those rates may be expected to be profitable during the ensuing year.

Interested parties have been notified of the filing of the supplemental application. No objection has been received.

In the circumstances it appears that this is a matter in which a public hearing is not necessary and that the supplemental application should be granted.
