

ORIGINALDecision No. 50868

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 C. N. BATES, an individual, dba)
 C. N. BATES DRAYAGE, for a certifi-)
 cate of public convenience and)
 necessity to operate as a highway) Application No. 34886
 common carrier between South San)
 Francisco and San Francisco, on the)
 one hand, and East Bay points, on)
 the other hand.)

Frank Loughran, for applicant.

Douglas Brookman, William Meinhold and Frederick E. Fuhrman, Willard S. Johnson, William E. Shuhelm, Edward M. Berol, Bertram S. Silver and Robert P. Brown, for various certificated carriers, protestants.

Marvin Handler, Daniel W. Baker, Vaughan, Paul and Lyons by John G. Lyons, Arthur D. Nearon, Preston W. Davis, Roger Ramsey, all for various carriers; Russell Bevans, for Draymen's Association of San Francisco; Maurice A. Owens, for Draymen's Association of Alameda County; and Norman R. Moon, for Loretz & Co., interested parties.

O P I N I O N

Applicant is one of the group of carriers whose problems precipitated the investigation designated by the Commission as Case No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to this applicant and to have materially influenced his activities. In addition, a hearing on this application alone was held before Examiner John Power in San Francisco on July 16, 1954. On that occasion applicant presented evidence covering the history, finances, equipment, facilities and personnel of his organization.

C. N. Bates testified he has had about 25 years of experience in truck transportation. Early in 1943 he went into business for himself, purchasing one truck and doing all the work

himself. He presently has nine employces and eight pieces of equipment and estimates that 40 per cent of his business is now transbay.

Applicant's terminal contains 37,500 square feet of yard space, 16,000 square feet of dock space and adequate office facilities.

A balance sheet exhibit introduced by applicant shows assets of \$16,014, including \$11,185 of current assets; the current liabilities were \$490. Operations in 1953 showed revenue of \$85,256, expenses of \$66,741 and a gross profit of \$18,515. The revenue, expense and profit figures for the years 1949 through 1952 were given in another exhibit as follows:

	<u>1949</u>	<u>1950</u>	<u>1951</u>	<u>1952</u>
Freight Revenue	\$42,019.66	\$57,917.63	\$65,965.23	\$73,761.31
Expense	33,293.99	47,472.57	54,775.99	61,512.40
Net Revenue	8,725.67	10,445.06	11,189.24	12,248.91

Applicant has acquired seven units of revenue equipment and a service car since January 1, 1949. All eight were acquired for cash.

The operating method of applicant is to provide delivery service across the bridge twice a day with additional service as needed.

The applicant's traffic exhibit as summarized in Exhibit 17 in Case 5535 shows 2,077 shipments of 1,099,265 pounds in 71 days reported or 29 shipments per day. Average weight handled came to 15,483 pounds per day, 325,143 pounds per month and 3,901,716 pounds per year for a long list of customers. Six of these customers testified in support of the application. They represented companies from the following trades or industries: tire and rubber, pet foods and supplies, metallurgy and plastics, sanitary and related supplies, toiletries and beauty shop supplies, and gasoline service station supplies.

The evidence shows that applicant has the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of the San Francisco-East Bay communities has increased the over-all requirements for common carrier service and has resulted in increased demand for applicant's services. Public convenience and necessity require that the application be granted. This grant will be on the condition, however, that applicant serve the whole of the San Francisco-East Bay cartage zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

Applicant is placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, they extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

Application having been filed and public hearings held thereon, and the Commission having considered the same and being of the opinion and finding that public convenience and necessity so require; therefore,

IT IS ORDERED:

(1) That a certificate of public convenience and necessity is hereby granted to C. N. Bates, doing business as C. N. Bates

Drayage, authorizing the establishment and operation of a service as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities except petroleum products in bulk in tank vehicles, dangerous explosives and livestock, between the points set forth in Appendix "A" attached hereto and by this reference made a part of this order.

(2) That in providing service pursuant to the authority herein granted, applicant may use any and all streets, roads, highways and bridges, and shall comply with the following service regulations:

- a. Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate herein granted.
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicant shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate, and concurrently making effective, tariffs satisfactory to the Commission.

The effective date of this order shall be February 1, 1955.

Dated at San Francisco, California, this 14th day of DECEMBER, 1954.
