

**ORIGINAL**Decision No. 50990

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application )  
of CHARLES J. WORTH DRAYAGE CO., )  
a California corporation, for a )  
certificate of public convenience )  
and necessity as a highway common )  
carrier. )

Application No. 35045

Frank Loughran, for applicant.  
Douglas Brookman, William Meinhold, Frederick E. Fuhrman, Willard S. Johnson, Edward M. Berol, Bertram S. Silver, Thomas P. Brown, and William E. Shuholm, for various carriers, protestants.  
Russell Evans, for Draymen's Association of San Francisco; Maurice A. Owens, for Draymen's Association of Alameda County; Norman R. Moon, for Loretz and Company, Daniel W. Baker, Marvin Handler, Arthur D. Nearon and Vaughan, Paul & Lyons by John G. Lyons, for various carriers, interested parties.

O P I N I O N

Applicant is one of the group of carriers whose problems precipitated the investigation designated by the Commission as Cas No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to this applicant and to have materially influenced its activities. In addition, a hearing on this application alone was held before Examiner John Power in San Francisco on September 10. On that occasion applicant presented evidence covering the company's finances, equipment, facilities and personnel of its organization.

The treasurer and manager of applicant appeared as witnesses in support of the application. From his testimony and exhibits introduced through him the facts hereinafter related were brought to light.

Application No. 35045

Frank Loughran, for applicant.  
Douglas Brookman, William Meinhold, Frederick E. Fuhrman, Willard S. Johnson, Edward M. Berol, Bertram S. Silver, Thomas P. Brown, and William E. Shuholm, for various carriers, protestants.  
Russell Bevans, for Draymen's Association of San Francisco; Maurice A. Owens, for Draymen's Association of Alameda County; Norman R. Moon, for Loretz and Company, Daniel W. Baker, Marvin Handler, Arthur D. Nearon and Vaughan, Paul & Lyons by John G. Lyons, for various carriers, interested parties.

O P I N I O N

Applicant is one of the group of carriers whose problems precipitated the investigation designated by the Commission as Case No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to this applicant and to have materially influenced its activities. In addition, a hearing on this application alone was held before Examiner John Power in San Francisco on September 10, 1954. On that occasion applicant presented evidence covering the history, finances, equipment, facilities and personnel of its organization.

The treasurer and manager of applicant appeared as operating witness in support of the application. From his testimony and the exhibits introduced through him the facts hereinafter related came to light.

Applicant was incorporated in 1917. Since that time or perhaps even earlier the company has moved traffic between San Francisco and East Bay points. This movement was increased with the opening of the San Francisco-Oakland Bay Bridge.

Operating statements are in evidence for five years, 1949 through 1953. Small net losses are shown for 1951 and 1953. Profits were earned in the other three years. The Commission staff developed figures for the first six months of 1954 which were included in Exhibit 5, Case No. 5535. In this period a substantial profit was earned. The staff shows a minus capital investment to December 31, 1953 converted to a plus figure by June 30, 1954. While the financial picture for this concern is no more than barely adequate, no financial difficulties were indicated.

Applicant's terminal is located at San Francisco. It contains necessary office space and a yard of 16,000 square feet. There is a dock with loading space for 14 trucks at one time. Spur track facilities are included with accommodations for ten rail cars. Thirty-five persons are employed in applicant's operations. Thirty-one pieces of equipment are used.

Applicant's exhibits indicate that approximately two hundred customers have been served. Five of these testified in support of the application. Weights varied from less than twenty pounds to multiple truckload lots. Commodities carried exceeded two hundred.

The evidence shows that applicant has the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of the San Francisco-East Bay community has increased the over-all requirements for common carrier service and has resulted in increased demand for applicant's services. Public convenience and necessity require that the application be granted. This grant will be on the

condition, however, that applicant serve the whole of the San Francisco-East Bay Cartage Zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

Applicant is placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, they extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

Application having been filed and public hearings held thereon and the Commissioner having considered the same and being of the opinion and finding that public convenience and necessity so require, therefore,

IT IS ORDERED:

(1) That a certificate of public convenience and necessity is hereby granted to Chas. J. Worth Drayage Company, a California corporation, authorizing the establishment and operation of a service as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities except petroleum products in bulk in tank vehicles, uncrated household goods, dangerous explosives and livestock, between the points set forth in Appendix "A" attached hereto and by this reference made a part of this order.

2. That in providing service pursuant to the authority herein granted, applicant may use any and all streets, roads, highways and bridges, and shall comply with the following service regulations:

- a. Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate herein granted.
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicant shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate and concurrently making effective tariffs satisfactory to the Commission.

The effective date of this order shall be February 1, 1955.

Dated at San Francisco, California, this 18th

day of January, 1955.
