

ORIGINALDecision No. 51801

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application)
of RAY W. FRASER, doing business)
as W. A. FRASER TRUCKING CO., for)
a certificate of public conven-)
ience and necessity to operate as)
a highway common carrier.)

Application No: 35170

Danier W. Baker, for applicant.
Douglas Brookman, E. L. Carley, William
Meinhold, Frederick E. Fuhrman, Edward M.
Berol, Bertram S. Silver, Thomas P. Brown,
Willard S. Johnson and William E. Shuholm,
for various carriers, protestants.
Russell Bevans, for Draymen's Association of
San Francisco; Maurice A. Owens, for
Draymen's Association of Alameda County;
Norman R. Moon, for Loretz & Co.; Arthur D.
Nearon, Marvin Handler, Frank Loughran,
Vaughan, Paul and Lyons by John G. Lyons,
for various carriers, interested parties.

O P I N I O N

Applicant is one of the group of carriers whose problems precipitated the investigation designated by the Commission as Case No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to this applicant and to have materially influenced his activities. In addition, a hearing on this application alone was held before Examiner John Power in Oakland on June 2, 1954. On that occasion applicant presented evidence covering the history, finances, equipment, facilities and personnel of his organization.

W. A. Fraser, the father of the applicant, purchased a business called "Owl Transfer" in 1912. With the business the elder Fraser acquired two horses and a wagon. In 1916 the first truck was

purchased and quite soon thereafter the entire operation was converted to trucks. It was also in 1916 that transbay service was inaugurated. At first sporadic, the transbay service became regular about 1920. Ray W. Fraser was employed by his father as a driver in 1930. In 1933 he became a partner and after the death of his father in 1944, sole owner.

The balance sheet of applicant as of December 31, 1953 is in evidence. It shows that the cash-in-bank figure is more than eight times the total liabilities. The operating statements, also in evidence, show that operations have been profitable in all years reported (1949-1953 inclusive). There were no outstanding equipment obligations.

Applicant's fleet consists of 21 pieces of equipment. His terminal is located in Oakland not far from the eastern approach to the San Francisco-Oakland Bay Bridge. The terminal includes 7,500 square feet of yard space and 300 square feet of office space.

Applicant stated that he follows the practice of picking up on call. Same-day delivery is the rule although overnight service is given on very late pickups.

Applicant is unique in the group of applicants associated with Case No. 5535 in having asked for the inclusion of Niles in his certificate. The evidence, however, did not indicate frequent service at that point. Furthermore, the attention of all parties in this group of proceedings has been directed toward the points included in the San Francisco-East Bay Cartage Zone established in the investigation referred to above. We are of the opinion that the applicant's desire to serve Niles could best be considered in a separate proceeding. Therefore, this phase of the application will be denied without prejudice.

Applicant is now serving more than 40 shippers, of whom five testified in support of the application. It appears from the traffic study in evidence that this carrier has been patronized extensively by steel processors and related industries. However, various other commodities have been carried. Fraser testified that he never has refused shipments and would carry any freight offered to him in any weight group.

The evidence shows that applicant has the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of San Francisco-East Bay community has increased the over-all requirements for common carrier service and has resulted in increased demand for applicant's services. Public convenience and necessity require that the application be granted. This grant will be on the condition, however, that applicant serve the whole of the San Francisco-East Bay Cartage Zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

Applicant is placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, they extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

Application having been filed and public hearings held thereon, and the Commission having considered the same and being of the opinion and finding that public convenience and necessity so require; therefore,

IT IS ORDERED that:

1. A certificate of public convenience and necessity is hereby granted to Ray W. Fraser, doing business as W. A. Fraser Trucking Co., authorizing the establishment and operation of a service as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities except petroleum products in bulk in tank vehicles, uncrated household goods, livestock and commodities of unusual value, between the points set forth in Appendix "A" attached hereto and by this reference made a part of this order;

2. In providing service pursuant to the authority herein granted, applicant may use any and all streets, roads, highways and bridges, and shall comply with the following service regulations:

- a. Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate herein granted;
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicant shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate, and concurrently making effective, tariffs satisfactory to the Commission.

IT IS HEREBY FURTHER ORDERED that in all other respects
Application No. 35170 be and it is denied without prejudice.

The effective date of this order shall be February 1, 1955.

Dated at San Francisco, California, this 18th
day of January, 1955.
