

**ORIGINAL**Decision No. 51620

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of )  
 MORRIS DRAYING COMPANY, a corporation, )  
 for a certificate of public ) Application No. 35357  
 convenience and necessity to operate )  
 as a highway common carrier for the )  
 transportation of property. )

Daniel W. Baker, for applicant.

Douglas Brookman, William Meinhold, Frederick E. Fuhrman,  
Edward M. Berol, Bertram S. Silver, Thomas P. Brown  
 and William E. Shuholm, for various carriers,  
 protestants.

Russell Bevans, for Draymen's Association of San Francisco;  
Maurice A. Owens, for Draymen's Association of Alameda  
 County; Norman R. Moon, for Loretz & Co.; Preston W.  
Davis, Roger Ramsey, Willard S. Johnson, Marvin Handler,  
Frank Loughran, Arthur D. Nearon, Vaughan, Paul and  
Lyons by John G. Lyons, for various carriers, interested  
 parties.

#### O P I N I O N

Applicant is one of a group of carriers whose applications were heard in connection with those whose problems precipitated the investigation designated by the Commission as Case No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to this applicant and to have materially influenced its activities. In addition, a hearing on this application alone was held before Examiner John Power in San Francisco on September 15, 1954. On that occasion applicant presented evidence covering the history, finances, equipment, facilities and personnel of its organization.

Applicant's vice president testified at the September 15 hearing and, through him, seven exhibits were presented. Four shipper witnesses supported the application. From the record thus made the facts enumerated below are derived.

Applicant commenced operations in 1918 with the purchase of some horse-drawn equipment from one Frank Josephs. Conversion to trucks began in that same year.

Financial exhibits consisted of a July 31, 1954 balance sheet, operating statements for five years 1949-1953 and the first seven months of 1954 and an analysis of the revenue equipment account. The applicant is shown to be in good financial condition on the date shown, with capital and surplus of \$514,225.72. Profits were earned for the full years reported and a loss for the partial year. This is characteristic of this operation because applicant is a large agricultural products carrier and earns its profits during the harvest season. Equipment obligations stood at \$63,240 on June 30, 1954.

Applicant, for many years, operated from downtown Oakland. In March, 1954 a new terminal was opened on a 10-acre tract, of which nine acres is in Oakland and one acre in San Leandro. On this property applicant has built an administration building 4,000 square feet in area, a maintenance building of 7,000 square feet and a storage shed and drivers' building. The operating equipment consists of 161 units.

Same-day service, including transbay service, is offered by Morris. Such service was once given on a movement of 400 tons. Shipments have ranged from 10 to over 1 million pounds in weight. Numerous customers, of which 30 are claimed as regular by the operating witness, have been served. Several customers have been served for many years. For one year, June 1953 to May 1954, applicant made 1,309 vehicle round trips transbay, averaging 5.19 trips per working day.

The evidence shows that applicant has the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of the San Francisco-East Bay community has increased the over-all requirements for common carrier service and has resulted in increased demand for applicant's services. Public convenience and necessity require that the application be granted. This grant will be on the condition, however, that applicant serve the whole of the San Francisco-East Bay Cartage Zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

Applicant is placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

Application having been filed and public hearings held thereon and the Commission having considered the same and being of the opinion and finding that public convenience and necessity so require, therefore,

IT IS ORDERED that:

1. A certificate of public convenience and necessity is hereby granted to Morris Draying Company, a California corporation, authorizing the establishment and operation of a service as a

highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities except petroleum products in bulk in tank vehicles, uncrated used household goods and livestock between the points set forth in Appendix "A" attached hereto and by this reference made a part of this order.

2. In providing service pursuant to the authority herein granted, applicant may use any and all streets, roads, highways and bridges, and shall comply with the following service regulations:

- a. Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate herein granted.
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicant shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate and concurrently making effective tariffs satisfactory to the Commission.

The effective date of this order shall be February 1, 1955.

Dated at Los Angeles, California, this 21<sup>st</sup> day  
of JANUARY, 1955.
