BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of) FRANK L. NOLAN, an individual, doing) business as FRANK NOLAN DRAYAGE CO.,) for a certificate of public conven-) ience and necessity to operate as a) highway common parrier.)

Application No. 35417

Edward M. Berol, <u>Bertram S. Silver</u> and Thomas P. Brown, for applicant. <u>Douglas Brookman, William Meinhold</u>, <u>Frederick E.</u> <u>Fuhrman and William E. Shuholm</u>, for various carriers, pretestants. <u>Russell Bevans</u>, for Draymen's Association of San Francisco; <u>Maurice A. Owens</u>, for Draymen's Association of Alameda County; <u>Norman R. Moon</u>, for Loretz & Co.; <u>Willard S. Johnson</u>, <u>Daniel W.</u> <u>Baker</u>, <u>Marvin Handler</u>, <u>Arthur D. Nearon</u>, Vaughan, Paul and Lyons by <u>John G. Lyons</u>, <u>Preston W. Davis</u> and <u>Roger Ramsey</u>, for various carriers, interested parties.

<u>o p i n i o n</u>

Applicant is one of a group of carriers whose applications were heard in connection with those whose problems precipitated the investigation designated by the Commission as Case No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to this applicant and to have materially influenced his activities. In addition, a hearing on this application alone was held before Examiner John Power in San Francisco on August 27, 1954. On that occasion applicant presented evidence covering the history, finances, equipment, facilities and personnel of his organization.

Mr. Nolan testified in behalf of his application at the August 27 hearing and ten exhibits were presented through him. Four shipper witnesses testified in support of the application. The facts set forth below are derived from the record thus made.

-1-

A-35417 SL

This business was founded by applicant's father in 1924. Upon the death of the latter, applicant took the business over and has since conducted it.

It appears that applicant was in financial difficulties in 1949 and 1950. However, he effected economies and the business survived. A profit was carned in 1950 and profits have been carned ever since.

Applicant operates from three addresses in San Francisco. The office and headquarters has three doors for loading vehicles. At a nearby warehouse applicant has 10,000 square feet of floor space with spur track and truckloading facilities. The third location is a vehicle storage facility. Applicant has 15 pieces of equipment and 11 employees.

Applicant affords same-day delivery on most shipments. Deliveries are usually direct and from the pickup vehicle. Fifty customers are claimed by applicant and a variety of commodities is carried. Weights of shipments have varied from 23 to over 20,000 pounds.

The evidence shows that applicant has the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of the San Francisco-East Bay community has increased the over-all requirements for common carrier service and has resulted in increased demond for applicant's services. Public convenience and necessity require that the application be granted. This grant will be on the condition, however, that applicant serve the whole of the San Francisco-East Bay Cartage Zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

-2-

Applicant is placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

$O R D \Xi R$

Application having been filed and public hearings held thereon, and the Commission having considered the same and being of the opinion and finding that public convenience and necessity so require; therefore,

IT IS ORDERED:

(1) That a certificate of public convenience and necessity is hereby granted to Frank L. Nolan, an individual, doing business as Frank Nolan Drayage Co., authorizing the establishment and operation of a service as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities except petroleum products in bulk in tank vehicles, uncreted household goods, livestock and commodities of unusual value, between the points set forth in Appendix "A" attached hereto and by this reference made a part of this order.

(2) That in providing service pursuant to the authority herein granted, applicant may use any and all streets, roads, highways and bridges, and shall comply with the following service regulations:

-3-

A-35417 SL

- a. Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate herein granted.
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicant shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate, and concurrently making effective, tariffs satisfactory to the Commission.

The effective date of this order shall be February 1, 1955. Dated at <u>Yor Angeles</u>, California, this <u>25</u>

day of ______ (3ANIMADY______, 1955. ident
