

ORIGINALDecision No. 51063

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 ARROW DELIVERY COMPANY, a corporation,)
 for a certificate of public convenience)
 and necessity as a highway common)
 carrier between San Francisco and)
 South San Francisco on the one hand,)
 and East Bay points, on the other)
 hand.)

Application No. 35757

John A. O'Connell, for applicant.

Russell Bevans, for Draymen's Association of
 San Francisco; Maurice A. Owens, for Draymen's
 Association of Alameda County; Norman R. Moon,
 for Loretz & Co.; Douglas Brookman, William
Meinhold, Frederick E. Fuhrman, William E.
Shuholm, Daniel W. Baker, Preston W. Davis,
Roger Ramsey, Marvin Handler, Willard S.
Johnson, Frank Loughran, Arthur D. Nearon
 and Vaughan, Paul and Lyons by John G. Lyons,
 for various carriers, interested parties.

O P I N I O N

Applicant is one of a group of carriers whose applications were heard in connection with those whose problems precipitated the investigation designated by the Commission as Case No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to this applicant and to have materially influenced its activities. In addition, a hearing on this application alone was held before Examiner John Power in San Francisco on October 18, 1954. On that occasion applicant presented evidence covering the history, finances, equipment, facilities and personnel of its organization.

Applicant's president and general manager testified in its behalf and through him nine exhibits were presented. Five shipper witnesses testified in support of the applicant's proposal. From those sources the facts hereinafter enumerated were developed.

A trucking business has been conducted by various owners in San Francisco under the name of Arrow Delivery Company since 1922. By 1946 one Cedric A. Parker was operating as an individual under that name. He sold this business to applicant corporation effective July 1, 1953.

Applicant's single full year of operation (July 1, 1953 to June 30, 1954) resulted in a profit. The balance sheet as of June 30, 1954 shows the applicant to have capital and surplus totaling in excess of \$11,700.

Arrow has a terminal in San Francisco containing 5000 square feet of yard space, 4000 square feet of covered space and office facilities. The operating fleet includes eleven pieces of equipment. Eleven persons are employed.

Service is rendered on the twice-a-day basis characteristic of the area in which applicant operates. An exhibit showed that commodities carried have exceeded one hundred; and another showed more than two hundred customers served. An exhibit based on March bridge tolls revealed daily week-day crossings plus one Saturday and one Sunday. Revenues have sharply increased under the present management.

The evidence shows that applicant has the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of the San Francisco-East Bay community has increased the over-all requirements for common carrier service and has resulted in increased demand for applicant's services. Public convenience and necessity require that the application be granted. This grant will be on the condition,

however, that applicant serve the whole of the San Francisco-East Bay Cartage Zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

Applicant is placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

Application having been filed and public hearings held thereon and the Commission having considered the same and being of the opinion and finding that public convenience and necessity so require, therefore,

IT IS ORDERED:

1. That a certificate of public convenience and necessity is hereby granted to Arrow Delivery Company, a California corporation authorizing the establishment and operation of a service as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities except petroleum products in bulk in tank vehicles, uncrated household goods, livestock, dangerous explosives and commodities of unusual value between the points set forth in Appendix "A" attached hereto and by this reference made a part of this order.

2. That in providing service pursuant to the authority herein granted, applicant may use any and all streets, roads, highways and bridges, and shall comply with the following service regulations:

- a. Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate herein granted.
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicant shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate and concurrently making effective tariffs satisfactory to the Commission.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 1st day of September, 1955.
