

ORIGINALDecision No. 51071

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 CECIL ALEXANDER REID and DAVID WILLIAM)
 REID, (copartners) doing business as)
 A. W. REID DRAYING COMPANY, for a) Application No. 35665
 certificate of public convenience and)
 necessity to operate as a highway)
 common carrier.)

Edward M. Berol, Bertram S. Silver and Thomas P. Brown,
 for applicants.

Douglas Brookman, William Meinhold, Frederick E. Fuhrman
and William E. Shuholm, for various carriers, protestants.

Russell Bevans, for Draymen's Association of San Francisco;
Maurice A. Owens, for Draymen's Association of Alameda
 County; Norman R. Moon, for Loretz & Co.; Daniel W. Baker,
Preston W. Davis, Roger Ramsey, Marvin Handler,
Willard S. Johnson, Frank Loughran, Arthur D. Nearon
and Vaughan, Paul and Lyons by John G. Lyons, for
 various carriers, interested parties.

O P I N I O N

Applicants are part of a group of carriers whose applications were heard in connection with those whose problems precipitated the investigation designated by the Commission as Case No. 5535. Hearings were held on this application in connection with that case. Evidence of community growth and the resulting expansion of carrier operations, as developed in Case No. 5535, was found to apply to these applicants and to have materially influenced their activities. In addition, a hearing on this application alone was held before Examiner John Power in San Francisco on September 28, 1954. On that occasion applicants presented evidence covering the history, finances, equipment facilities and personnel of their organization:

One of the applicant partners testified as operating witness on September 28. Through him eleven exhibits were presented. Six shipper witnesses testified in support of the application. From these sources the facts hereafter related were developed.

The father of these two applicants founded this business in 1904. Between 1926 and 1930 these applicants became active in the business. In 1941 they took control and have since operated the firm.

Two balance sheets were introduced, year-end of 1953, and June 30, 1954. These revealed that applicants were in satisfactory financial condition on both dates. Operations were shown to be profitable for the five full years reported; namely, 1949 through 1953.

Applicants have an office and terminal in San Francisco on a lot 13,700 square feet in area. The witness stated that they have 23 employees. Equipment includes 17 trucks, two tractors, three trailers, two service cars and a fork lift.

Applicants provide both a same-day delivery and an overnight delivery service with emphasis on the former. Direct delivery is favored, with a minimum of dock handling. Between July 22 and August 20, 1954, 51 transbay round trips were made by applicants' equipment.

Applicants have carried a variety of commodities. Numerous consignors and consignees have been served. Weights of shipments have varied from 200 to 11,000 pounds.

The evidence shows that applicants have the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of the San Francisco-East Bay community has increased the

over-all requirements for common carrier service and has resulted in increased demand for applicants' services. Public convenience and necessity require that the application be granted. This grant will be on the condition, however, that applicants serve the whole of the San Francisco-East Bay Cartage Zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

Applicants are placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

ORDER

Application having been filed and public hearings held thereon, and the Commission having considered the same and being of the opinion and finding that public convenience and necessity so require; therefore,

IT IS ORDERED:

1. That a certificate of public convenience and necessity is hereby granted to Cecil Alexander Reid and David William Reid, copartners, doing business as A. W. Reid Draying Company, authorizing the establishment and operation of a service as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities except petroleum

products in bulk in tank vehicles, uncrated household goods, livestock and commodities of unusual value, between the points set forth in Appendix "A" attached hereto and by this reference made a part of this order.

2. That in providing service pursuant to the authority herein granted, applicants may use any and all streets, roads, highways and bridges and shall comply with the following service regulations:

- a. Within thirty days after the effective date of this order, applicants shall file a written acceptance of the certificate herein granted.
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicants shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate and concurrently making effective tariffs satisfactory to the Commission.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 10th day of February, 1955.
