

ORIGINALDecision No. 51106

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 SOUTHERN CALIFORNIA EDISON COMPANY,)
 a corporation, for authority to)
 enter into and carry out the terms) Application No. 35571
 of a service agreement with GENERAL) (First Supplemental)
 TELERADIO, INC., doing business as)
 Don Lee Broadcasting System, dated)
 as of June 10, 1954.)

OPINION AND ORDER ON FIRST SUPPLEMENTAL APPLICATION

By this First Supplemental Application, Southern California Edison Company requests authority to enter into and carry out the terms of a supplemental and amending agreement, dated December 16, 1954, with General Teleradio, Inc., a corporation doing business as Don Lee Broadcasting System. A copy of the agreement, marked Exhibit "I", is attached to this application.

This supplemental agreement amends an agreement dated June 10, 1954, the latter having been authorized by Decision No. 50651, dated October 13, 1954, in the above-entitled proceeding. Under the original agreement, applicant supplies 75 kva of capacity for electric energy and service at consumer's television and frequency modulated transmitter station located on Mount Wilson, California.

The application shows that consumer's demand for electric energy is substantially increasing and this supplemental and amending agreement provides that applicant will increase facilities from 75 kva of capacity to 225 kva of capacity to serve consumer's transmitter station.

Said supplemental agreement also provides that if the furnishing of electric energy and service to consumer should be discontinued for any reason prior to the end of the expiration of thirty-six months from the effective service date, consumer agrees

to pay applicant the sum of \$440.91, which is deemed to be the cost of installing and removing the additional equipment and facilities necessary to provide additional service under the supplemental agreement.

The agreement provides that electric energy will be delivered by Edison at a nominal voltage of 480 volts, three-phase, and that consumer shall pay for all electric service furnished at the rates and under the terms and conditions set forth in applicant's tariff schedule A-7, as said schedule now exists and as it may hereafter be modified or superseded.

The supplemental agreement provides that it shall be subject at all times to such changes or modifications by this Commission as said Commission may from time to time direct in the exercise of its jurisdiction, and that it shall not become effective until authorized by this Commission.

Except as supplemented and amended by this agreement, the original agreement dated June 10, 1954, is to remain in full force and effect.

The Commission having considered the above-entitled application and being of the opinion that the application should be granted and that a public hearing in the matter is not necessary, therefore,

IT IS HEREBY ORDERED that Southern California Edison Company be and it is authorized to carry out the terms of that certain supplemental and amending agreement with General Teleradio, Inc., dated December 16, 1954, a copy of which is marked Exhibit "I" and attached to the application, to render the service therein specified and to charge and collect the rates stated therein.

IT IS HEREBY FURTHER ORDERED that Southern California Edison Company shall file with this Commission a statement showing the date on which service under the amended agreement was first rendered.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 11th day of FEBRUARY, 1955.
