

Decision No. 51407**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of )  
 DELTA LINES, INC., to establish joint )  
 rates with Veryl Callison, doing )  
 business as CALLISON TRUCK LINES, )  
 NIELSEN FREIGHT LINES, Myron D. )  
 Peters and Walter F. Peters, doing )  
 business as PETERS TRUCK LINES, and )  
 WAY'S FREIGHT LINE. )

Application No. 36861

OPINION AND ORDER

Applicants are highway common carriers of general commodities. Delta Lines, Inc. operates between San Francisco, Oakland, Stockton, Sacramento and intermediate points. The other applicants operate between various points in northern California. By this application authority is sought to establish, on less than statutory notice, through service, through routes and joint rates between points as set forth in the application. Authority is also sought to depart from the long-and-short-haul provisions of the Constitution and of the Public Utilities Code to the extent necessary to establish the joint rates. The freight would be interchanged at San Francisco or Oakland with all applicants other than Peters Truck Lines. The interchange with Peters Truck Lines would be at Sacramento.

The proposed rates are on the same level as the minimum rates named in Minimum Rate Tariff No. 2. Service over applicants' lines between the points involved is now subject to combinations of their local rates. These combination rates are higher than the proposed joint rates. Applicants represent that it will be advantageous to the public to be able to make through shipments over their lines under the lower rates. They point out that the rates sought to be published are those established as the minimum rates between the points involved and that competing carriers have heretofore been granted like authority.

Competing carriers have been notified of the filing of the application. No objection has been received.

It appears that the establishment of through service, through routes and joint rates, on five days' notice, as proposed, is not adverse to the public interest and should be authorized. A public hearing is not necessary.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that applicants be and they are hereby authorized to establish on not less than five days' notice to the Commission and the public the through service, through routes and joint rates proposed in the above-entitled application; and to depart from the provisions of Article XII, Section 21, of the Constitution of the State of California and Section 460 of the Public Utilities Code to the extent necessary to establish the rates authorized herein.

IT IS HEREBY FURTHER ORDERED that the authority herein granted shall expire unless the authorized rates are made effective within sixty days after the effective date of this order.

This order shall become effective twenty days after the date hereof.

Dated at San Francisco, California, this 3rd day of May, 1955.
