OPINION AND ORDER  
ON FIRST SUPPLEMENTAL APPLICATION

By this first supplemental application Southern California Edison Company requests authority to enter into and carry out the terms of a supplemental letter agreement dated September 29, 1954, with the City of Riverside. A copy of the agreement marked Exhibit "A" is attached to this application.

This supplemental agreement amends a contract dated May 25, 1949, the latter having been authorized by Decision No. 43376, dated October 11, 1949, and Decision No. 43884, dated March 7, 1950, in the above-entitled application. Under the contract, applicant presently supplies the total electric energy requirements of the City of Riverside. The City of Riverside owns and operates electric utility properties within the territorial limits of said City, except for a substation at Ninth and Mulberry Streets, Riverside, which is owned and maintained by the applicant.

In Decision No. 50449 in Application No. 33952, applicant was authorized to negotiate a monthly rental charge for the substation facilities. A rate of \$1,500 per month, commencing September 13, 1954, was agreed upon, which amount applies only to

A. 30419 1st Sup. AM

the transformers and related equipment existing on the date of this supplemental agreement. Any requests by the City for additional facilities will be subject to further negotiation between the parties hereto. The agreement states that in consideration of the establishment of said monthly rental, sub-paragraph four on page six of the agreement dated May 25, 1949, shall be deemed to be superseded and cancelled. Except as modified by this supplemental letter agreement and by the provisions of the Commission's Decision No. 50449, the original contract is to continue in effect unchanged.

The supplemental agreement provides that it shall at all times be subject to such changes or modifications by this Commission as said Commission may, from time to time, direct in the exercise of its jurisdiction.

The Commission having considered the above-entitled application and being of the opinion that the application should be granted and that a public hearing in the matter is not necessary, therefore,

IT IS HEREBY ORDERED that Southern California Edison Company be and it is authorized to carry out the terms of that certain supplemental letter agreement with the City of Riverside, dated September 29, 1954, a copy of which is marked Exhibit "A" and attached to the application, to render the service therein specified and to charge and collect the rates stated therein.

IT IS HEREBY FURTHER ORDERED that Southern California Edison Company shall file with this Commission a statement promptly after termination of said supplemental letter agreement showing the

date when said agreement was terminated.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 10<sup>th</sup> day of May, 1955.
