Decision No. _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)	
BERKELEY TRANSFER & STORAGE CO., a)	
California corporation, for a certifi-)	Application No. 36289
cate of public convenience and necessity)	
to operate as a highway common carrier.)	

O P I N I O N

This application seeks authority to serve the San Francisco-East Bay Cartage Zone established by Decision No. 50872 (Case No. 5535; 53 Cal. P.U.C. 696). The sought certificate is to move new household goods, new office and store fixtures and equipment.

Applicant's articles of incorporation were filed with the application.

Applicant commenced operations as a partnership in 1923. The business was incorporated in 1935. One of the present executives was an original partner. Three others entered the business in 1935, 1943 and 1946, respectively. The present regular drivers have six years or more, each, of experience with this company. Financial information was attached to the application in the form of exhibits. A balance sheet showed a ratio of current assets to current liabilities of approximately three to one. A net investment in excess of \$39,000 was shown.

Applicant owns nine pieces of equipment, three trucks, three tractors, two van trailers and one stake trailer. Terminal facilities include a building containing about 9,000 square feet of storage space and 300 square feet of office space. At a nearby location applicant has a 5,600 square-foot lot for vehicle storage.

Since other carriers operating in the San Francisco-East Bay Cartage Zone have received certificates effective on February 1, 1955, or upon their respective dates of issuance, if later, the order

herein will be made effective upon its date. By reason of the fact that the need for the services of additional common carriers in the cartage zone was so exhaustively considered in Case No. 5535, supra, public hearings are not necessary herein.

The evidence shows that applicant has the necessary financial ability, facilities, equipment, experience and personnel to undertake the proposed service. It further shows that the growth of the San Francisco-East Bay community has increased the over-all requirements for common carrier service and has resulted in increased demand for applicant's services. Public convenience and necessity require that the application be granted. This grant will be on the condition, however, that applicant serve the whole of the San Francisco-East Bay Cartage Zone as established in Case No. 5535. Acceptance of the certificate herein granted will be construed as consent to this condition.

Applicant is placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

Application having been filed and the Commission having considered the same and being of the opinion and finding that public convenience and necessity so require, therefore,

IT IS ORDERED:

1. That a certificate of public convenience and necessity is hereby granted to Berkeley Transfer & Storage Co., a California corporation, authorizing the establishment and operation of a service as a highway common carrier, as defined in Section 213 of the Public Utilities Code, for the transportation of new household goods and new office, store and institution furniture and fixtures between the points set forth in Appendix "A" annexed hereto and by this reference made a part of this order.

2. That applicant may use any and all streets, roads, highways and bridges, and in providing service pursuant to the authority herein granted shall comply with the following service regulations:

- a. Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate herein granted.
- b. Within sixty days after the effective date hereof, and upon not less than five days' notice to the Commission and the public, applicant shall establish the service herein authorized and comply with the provisions of General Order No. 80 by filing in triplicate and concurrently making effective tariffs satisfactory to the Commission.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 10th day of May, 1955.
