GF ORIGINAL 53260 Decision No. BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA In the Matter of the Application of CUNHA TRANSPORTATION COMPANY, for a certificate of public convenience and necessity to operate as a highway Application No. 36247 common carrier between certain California points transporting commodities listed herein. <u>o p i n i o n</u> Joe Cunha is engaged in the transportation of property in California pursuant to permits issued by this Commission. Applicant seeks an order authorizing him to conduct service as a highway common carrier for the transportation of general commodities, generally between San Francisco Territory, Los Angeles Territory, Los Angeles Essin Territory, San Diego Territory, Sacramento Territory and points in northern California

Notice of filing of the application was given all common carriers subject to the jurisdiction of this Commission.

and intermediate points.

This application was filed pursuant to Decision No. 50448, in Case No. 5478, dated August 17, 1954. In that decision, the Commission onunciated a policy under which it may consider operation as a highway permit carrier up to and including September 10, 1953, as evidence of public convenience and necessity, if it appears that such operation may be found to constitute common carriage under the terms of the Nolan decision (Nolan v. Public Utilities Commission, 41 C (2d) 392). The allegations of the application and the representations filed in this matter indicate, however, and the Commission finds that as of September 10, 1953, applicant was conducting his operations within the scope of the permits

heretofore issued by this Commission. Such operations not having constituted highway common carriage, the sought certificate of public convenience and necessity is not a requisite for continuance of applicant's operations as conducted on the said date; and the application will be denied.

The applicant is hereby placed on notice that the Commission, by this decision, makes no finding and expresses no opinion as to whether applicant has or has not been conducting his operations within the scope of his permitted authority since September 10, 1953; and that the provisions of Section 1063 of the Public Utilities Code will be strictly enforced.
