BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of MORRIS E. CARLSON, an individual, doing business as MORRY'S FREIGHT SERVICE, for a certificate of public convenience and necessity to operate as a highway common carrier of seneral commodities between various points and places in Southern California, pursuant to Section 1063 of the Public Utilities Code of the State of California.

Application No. 36295

<u>opinion</u>

Morris E. Carlson is engaged in the transportation of property in California pursuant to permits issued by this Commission.

Applicant seeks an order authorizing him to conduct service as a highway common carrier for the transportation of general commodities, with certain exceptions, generally between various points in Los Angeles County.

Notice of filing of the application was given all common carriers subject to the jurisdiction of this Commission.

This application was filed pursuant to Decision
No. 50448, in Case No. 5478, dated August 17, 1954. In that
decision, the Commission enunciated a policy under which it may
consider operation as a highway permit carrier up to and including
September 10, 1953, as evidence of public convenience and necessity,
if it appears that such operation may be found to constitute
common carriage under the terms of the Nolan decision (Nolan v.
Public Utilities Commission, 41 C (2d) 392). The allegations of
the application and the representations filed in this matter
indicate, however, and the Commissions finds that as of

September 10, 1953, applicant was conducting his operations within the scope of the permits heretofore issued by this Commission. Such operations not having constituted highway common carriage, the sought certificate of public convenience and necessity is not a requisite for continuance of applicant's operations as conducted on the said date; and the application will be denied.

The applicant is hereby placed on notice that the Commission, by this decision, makes no finding and expresses no opinion as to whether applicant has or has not been conducting his operations within the scope of his permitted authority since September 10, 1953; and that the provisions of Section 1063 of the Public Utilities Code will be strictly enforced.

ORDER

The Commission has considered the application and representations filed herein, Now Therefore

IT IS ORDERED that Application No. 36295 is denied.

The effective date of this order shall be ninety days after the date hereof.

Dated at San Francisco, California, this 7 day
