

Decision No. 53681**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of SAN DIEGO TRANSIT )  
 SYSTEM, a corporation, for authority )  
 to operate buses not to exceed ) Application No. 37935  
 40 feet in length and 102 inches )  
 in width. )

O P I N I O N

San Diego Transit System seeks authority pursuant to Section 694(g) and Section 697.1 of the California Vehicle Code to operate motor coaches not to exceed 40 feet in length and 102 inches in width, over all of its certificated routes in, and in the vicinity of, the City of San Diego, San Diego County, California.

Applicant has on order ten units of equipment of excess length and width and approval to operate such equipment will enable applicant to operate its service in a more efficient manner and provide a better service to the public.

Commission engineers have surveyed all of the proposed routes and find that there are no conditions that would make the operation of the larger units hazardous.

After full consideration, the Commission finds that the operation of buses not to exceed 40 feet in length and 102 inches in width, over the routes identified in Exhibit "A" attached to the application, would not be hazardous and are required to properly

serve the traveling public over these routes. No public hearing appears to be necessary.

O R D E R

An application having been filed and the Commission being fully informed therein

IT IS ORDERED:

That San Diego Transit System is authorized to operate motor coaches not to exceed 40 feet in length and not to exceed 102 inches in width, over the routes identified by number or letter in Appendix "A" which is attached hereto and by this reference, made a part hereof.

The effective date of this order shall be twenty days after the date hereof.

Dated at Los Angeles, California, this 29th day of August, 1956..
