certain designated routes in the State)	
of California.)	

FIFTH SUPPLEMENTAL ORDER

Southern Pacific Company, a corporation, on November 13, 1956 filed with the Commission a request for a further extension of time of nine months from the November 15, 1956 time limit specified in Decision No. 53076, dated May 15, 1956, in the above entitled proceeding, for complying with the requirements of Condition No. 2 of Decision No. 51828, dated August 16, 1955.

Applicant has heretofore filed its Third Supplemental Application herein requesting that Condition No. 2 of Decision No. 51828 be modified to permit the installation of telltales on each side of Beverly Boulevard Overpass, M.P. 11.10 (U.P.), rather than increase the overhead clearance from top of rail to the underside of this structure from 22 feet 9-1/8 inches to 23 feet 8 inches as required by said condition. Applicant in the instant application states that new engineering studies are now in progress with respect to the practicability of increasing this clearance and that the requested additional time is necessary to complete these studies.

It appears that the request for extension of time while these studies are being made is reasonable and should be granted, therefore,

IT IS ORDERED that the time limit within which Southern Pacific Company shall comply with Condition No. 2 of Decision No. 51828, dated August 16, 1955, with respect to the increasing of an overhead clearance from 22 feet 9-1/8 inches to 23 feet 8 inches above top of rail to the underside of Beverly Boulevard Overpass, M.P. 11.10 (U.P.), is hereby extended to and including August 15, 1957.

In all other respects Decision No. 51828 is reaffirmed and in force and effect.

This order shall become effective on the date hereof.

Dated at San Francisco, this 27th day of
NOVEMBER, 1956.
