Application No. 38904

O R D E R

Southern Pacific Company is authorized to construct an additional spur track at grade in and along Parker Street and to construct a spur track at grade across Ninth Street in the City of Berkeley, Alameda County, at the locations described in the application, to be identified as a portion of Crossing No. A-8.88-C. Construction of said crossings shall be equal or superior to Standard No. 2 of General Order No. 72, without superelevation and of a width to conform to the portion of the streets now graded, with tops of rails flush with the roadway and with grades of approach not exceeding one percent. Protection shall be by existing Standard No. 1 crossing signs (General Order No. 75-B). Applicant shall bear entire construction and maintenance expense.

Within thirty days after completion pursuant to this order, applicant shall so advise the Commission in writing. This authorization shall become void if not exercised within one year unless time be extended or if above conditions are not complied with. Authorization may be revoked or modified if public convenience, necessity, or

safety so require.

The industry to be served alleges that the lack of spur track service is preventing their moving into their new building. Therefore, the effective date of this order shall be the date hereof.
