

Decision No. 55165**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 GLENN E. RAY, an employee of)
 NATIONAL REEFER SERVICE, INC., a)
 Nebraska corporation, for a license)
 as a Motor Transportation Broker.)

Application No. 38775

O P I N I O N

In the above-entitled proceeding Glenn E. Ray requests the Commission to license him to engage in business as a motor transportation broker as defined in Section 4803 of the Public Utilities Code. The business would be conducted at 1231 East Seventh Street, Los Angeles, California. The application states that applicant is an employee of Associated National Reefer Service, Inc., a Nebraska corporation, whose address is 502 Merchants National Building, Omaha, Nebraska.

The corporation, Associated National Reefer Service, Inc., has joined in the application by execution of the required endorsement attached to the application and has provided a co-applicant form of surety bond as required by Section 4838 of the Public Utilities Code.

At the time the application was filed, the corporation was operating under the name, National Reefer Service, Inc. While the application was pending, the name of the corporation was changed to Associated National Reefer Service, Inc.

Applicant describes his present operations as follows:

Applicant's business consists of arranging for transportation in interstate commerce of non-manufactured agricultural commodities which are exempt from regulation by Section 203(b)(6) of the Interstate Commerce Act. The motor carriers

for which such transportation is arranged are engaged exclusively in interstate commerce, and are not required to hold and do not hold any certificates or permits in connection with the transportation of commodities sold, furnished or provided by applicant. Consequently, the carriers for which applicant arranges transportation vary from time to time, and applicant never knows from one day to the next when a new or different carrier will contact applicant and desire to have applicant arrange transportation for it. Under these circumstances, there is not sufficient time for applicant to obtain from such new or additional carriers, a letter of authority, file it with your Commission, file an amendment to applicant's application for authority to arrange transportation for such carrier, and have such amendment approved by the Commission, before applicant arranges transportation for such carrier. Applicant requests that as soon as the name of any such additional carrier is known, and applicant has arranged transportation for such carrier, applicant be permitted to furnish the Commission the name and address of such carrier and a letter of authority from such carrier, so that applicant's license can be amended to include such carrier.

It appears from the foregoing description that applicant's operation consists of arranging for the transportation in interstate commerce of nonmanufactured agricultural commodities, which is exempt from regulation by Section 203(b)(6) of the Interstate Commerce Act. Attached to the application are six letters of authority executed by carriers authorizing applicant to sell transportation for them. All of these carriers show headquarters at places in other states. Applicant requests that it be authorized to use each of these carriers, and also any other carrier with whom it might make arrangements to handle the interstate traffic involved and be permitted to furnish the Commission the name and address of such carriers by letter in the same manner as that done by other brokers engaged in furnishing the same type of transportation.

After full consideration of applicant's request we find no reason to withhold issuance of the license applied for. It will be granted under the same terms and conditions as those granted to

other motor transportation brokers engaged in the same type of service. In our opinion a public hearing is not required in this proceeding.
