INTERIM SUPPLEMENTAL OPINION AND ORDER

Applicant holds radial highway common, highway contract and city carrier permits. By Decision No. 53892 of October 9, 1956, in this proceeding, it was authorized as a city carrier, under Section 4015 of the Public Utilities Code, to transport rice, in sacks, for C. E. Grosjean Rice Milling Co., from that company's plant in San Francisco to piers on the San Francisco waterfront at a rate less than the established minimum rate. The authority is scheduled to expire October 29, 1957. Permission is sought to continue to deviate from the minimum rates. Applicant proposes to increase the authorized rate from 8 cents to 8½ cents per 100 pounds, minimum weight 20,000 pounds.

The supplemental application states that, except for increased costs, the conditions which justified deviation from the minimum rate still obtain. Applicant also states that the proposed increase in the authorized rate will offset the higher cost and that operations under the proposed rate may reasonably be expected to be profitable. However, applicant does not set forth any financial or cost data to show that operations under the reduced rate here in issue have been profitable or will be profitable under the proposed rate.

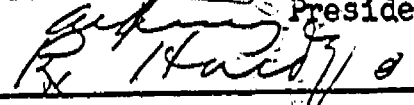

In the circumstances, applicant will be granted a 90-day extension of the presently authorized rate in order to enable it to show the profitableness of the operation here involved. In view of the expiration date of the present authority, the order will be made effective October 29, 1957. A public hearing is not necessary.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that the expiration date of the authority granted San Francisco Warehouse Co. by Decision No. 53892 of October 9, 1956, in this proceeding, be and it is hereby extended to January 27, 1958, unless sooner changed or further extended by order of the Commission.

This order shall become effective October 29, 1957.

Dated at San Francisco, California, this 28th day of October, 1957.
