Decision No. 55757

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)	
F. AND L. VAN LINES, INC., a)	
California corporation, for a)	
certificate of public convenience)	Application No. 36000
and necessity, pursuant to Section)	
No. 1063 of the Public Utilities)	
Code of the State of California.)	

O P I N I O N

F. and L. Van Lines, Inc. is engaged in the transportation of property in California pursuant to permits issued it by this Commission.

Applicant seeks an order authorizing it to conduct service as a highway common carrier for the transportation of property between various points in central and northern California.

Notice of filing of the application was given all common carriers subject to the jurisdiction of this Commission.

This application was filed pursuant to Decision No. 50448, in Case No. 5478, dated August 17, 1954. In that decision, the Commission enunciated a policy under which it may consider operation as a highway permit carrier up to and including September 10, 1953, as evidence of public convenience and necessity, if it appears that such operation may be found to constitute common carriage under the terms of the Nolan decision (Nolan v. Public Utilities Commission, 41 C (2d) 392). The allegations of the application and the representations filed in this matter indicate, however, and the Commission finds that as of September 10, 1953, applicant was conducting its operations within the scope of the permits heretofore issued by this Commission. Such operations not having constituted highway common carriage, the sought certificate of public convenience and necessity is not a requisite for continuance of applicant's operations as conducted on the said date; and the application will be denied.

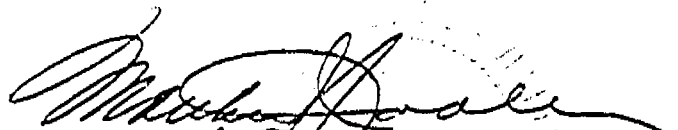

The applicant is hereby placed on notice that the Commission by this decision, makes no finding and expresses no opinion as to whether applicant has or has not been conducting its operations within the scope of its permitted authority since September 10, 1953; and that the provisions of Section 1063 of the Public Utilities Code will be strictly enforced.

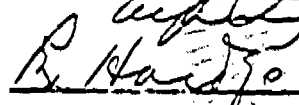

O R D E R

The Commission has considered the application and representations filed herein, now therefore

IT IS ORDERED that Application No. 36000 is denied.

Dated at San Francisco, California this 28th day of October, 1957.

President

Commissioners
