

ORIGINALDecision No. 56053

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 GLENN E. RAY, an employee of)
 Associated National Reefer Service,) Application No. 39657
 Inc., a Nebraska corporation, for)
 reissuance of a License as a Motor)
 Transportation Broker.)

O P I N I O N

Glenn E. Ray has filed an application requesting the Commission to renew his motor transportation broker's license for the year 1958.

The application sets forth that his business will continue to be conducted at 1231 East 7th Street, Los Angeles, California and that applicant is an employee of Associated National Reefer Service, Inc., a Nebraska corporation whose address is 2519 Dakota Avenue South, Sioux City, Nebraska. This corporation has joined in the application.

Applicant describes his present operations as follows:

Applicant's business consists of arranging for transportation in interstate commerce of non-manufactured agricultural commodities which is exempt from regulation by Section 203(b)(6) of the Interstate Commerce Act. The motor carriers for which such transportation is arranged are engaged exclusively in interstate commerce, and are not required to hold and do not hold any certificates or permits in connection with the transportation of commodities sold, furnished or provided by applicant. Consequently, the carriers for which applicant arranges transportation vary from time to time, and applicant never knows from one day to the next when a new or different carrier will contact applicant and desire to have applicant arrange transportation for it. Under these circumstances, there is not sufficient time for applicant to obtain from such new or additional carriers, a letter of authority, file it with your Commission, file an amendment to applicant's application for

authority to arrange transportation for such carrier, and have such amendment approved by the Commission, before applicant arranges transportation for such carrier. Applicant requests that as soon as the name of any such additional carrier is known, and applicant has arranged transportation for such carrier, applicant be permitted to furnish the Commission the name and address of such carrier and a letter of authority from such carrier, so that applicant's license can be amended to include such carrier.

It appears from the foregoing description that applicant's operation consists of arranging for the transportation in interstate commerce of nonmanufactured agricultural commodities, which is exempt from regulation by Section 203(b)(6) of the Interstate Commerce Act. Under his previous license applicant was authorized to act as a motor transportation broker for six named carriers and for such additional carriers as may be included in his license by amendment.

Applicant further points out that because of the numerous carriers used with few repetitions the Commission licensed him to arrange for transportation for such a carrier and to immediately notify the Commission in writing of the name of the carrier being used and his address. Applicant requested that he be authorized to continue such practice.

After full consideration of applicant's request, we find no reason to withhold issuance of the license applied for. It will be granted under the same terms and conditions as that granted by Decision No. 55165. Applicant has on file a co-applicant form of surety bond executed by Associated National Reefer Service, Inc. as principal as provided for in Section 4838 of Public Utilities Code. In our opinion no public hearing is required in this proceeding.

O R D E R

An application therefor having been filed, the Commission being fully informed therein and good cause appearing,
