Application No. 39739

O R D E R

Pacific Electric Railway Company is authorized to construct a drill track at grade across Carson Street in Los Angeles County, at the location described in the application, to be identified as Crossing No. 6M-16.15-C. Applicant shall bear entire construction and maintenance expense. Construction shall be equal or superior to Standard No. 2 of General Order No. 72 and of a width to conform to the portion of the street now graded, with tops of rails flush with roadway and with grades of approach not exceeding five per cent. Protection shall be by two Standard No. 1 crossing signs (General Order No. 75-B) with reflex reflecting sheet material.

Within thirty days after completion pursuant to this order, applicant shall so advise the Commission in writing. This authorization shall expire if not exercised within one year, unless time be extended, or if above conditions are not complied with. Authorization may be revoked or modified if public convenience, necessity, or safety so require.

The industry to be served by this track is alleged to require rail service at an early date. The effective date of this order shall therefore be the date hereof.

Dated at Los Angeles, California, this 3rd day of MARCH, 1958.
