Decision No. 56212

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of )  
HIGHWAY TRANSPORT, INC., a corporation, )  
for authority under Section 454 of the )  
Public Utilities Code of the State of )  
California to cancel certain rates, rules )  
and regulations. )

Application No. 39824

OPINION AND ORDER

By the above-entitled application, Highway Transport, Inc., a highway common carrier, seeks authority to cancel certain railhead and volume commodity rates, rules and regulations from its tariffs. The verified application states that there is no movement nor request for movement under these rates at the present time and that the prospects for future movement is rather remote. Applicant stipulates that if request is made for reinstatement of any or all of the rates sought to be canceled application will be made to republish any or all of said rates.

The rates in issue are published in tariffs formerly in the name of Cal-Central Trucking Co., Inc., and now adopted by applicant. Highway Transport, Inc., acquired the operating rights of Cal-Central Trucking Co., Inc., by authority of Decision No. 55112, dated June 11, 1957, in Application No. 38783.

It appears that the sought cancellation of the specified rates, rules and regulations is justified. A public hearing is not necessary.

Therefore, good cause appearing,

IT IS ORDERED:

(1) That Highway Transport, Inc., be and it is hereby authorized to cancel the rates, rules and regulations as specified in Application No. 39824.

(2) That the authority herein granted shall expire unless exercised within ninety days after the effective date hereof.

This order shall become effective twenty days after the date hereof.

Dated at San Francisco, California, this 25<sup>th</sup> day of MARCH, 1958.
