Decision No. 56496

## ORIGINAL

BEFOLE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of AILPORT SERVICE, INC. for authority to change routing between Long Beach and Los Angeles International Airport, Los Angeles, and between Long Beach and Lockheed Air Terminal, Burbank, and to establish an alternate route between Long Beach and Los Angeles International Airport and Lockheed Air Terminal, Burbank; also for authority to establish shuttle service between Long Beach Municipal Airport, Lakewood and borth Long Beach and Atlantic Avenue at Artesia Avenue to connect with established service between Long Beach and Los Angeles International Airport.

Application No. 39774

### OPINION

By this application Airport Service, Incorporated, seeks authority to establish a passenger stage service between Long Beach Municipal Airport and the intersection of Atlantic Avenue and Artesia Avenue, reroute service between Long Beach and the Los Angeles International Airport and Lockheed Air Terminal, abandon the present direct route between Long Beach and Lockheed Air Terminal and in lieu thereof establish a new route and retain the present Long Beach-Los Angeles International Airport route as an alternate route.

On the proposed new route between Long Beach Municipal Airport and the intersection of Atlantic Avenue and Artesia Avenue, only passengers originating at or destined to the Los Angeles International Airport and Lockheed Air Terminal would be carried:

Passengers would be transferred to and from through buses at the Clock Restaurant located at Artesia Avenue and Atlantic Avenue. Should travel warrant it, through buses would be operated between the three airports. The City of Lakewood would be served as an intermediate point, with passengers being picked up and discharged at Hody's Restaurant located at the intersection of Lakewood Boulevard and Candlewood Street. Presently owned limousine-type vehicles would be used.

The proposed fare between the three new points to be served and the Los Angeles International Airport is \$2.17 and between the three points and Lockheed Air Terminal is \$3.04. These are the exact fares now authorized to and from Long Beach and appear to be reasonable.

The application is not opposed and the Commission's staff has recommended favorably.

Applicant also operates a bus service for airline passengers between Pasadena and the Los Angeles International Airport.

The Commission having considered the matter, is of the opinion and finds that public convenience and necessity require the establishment of a transportation service as proposed, and therefore the application will be granted. A public hearing is not deemed necessary.

As the proposed changes in service affect a considerable portion of applicant's present operations, and in order to clarify applicant's operating authority, an in lieu certificate of public convenience and necessity will be granted and all prior authority will be cancelled as hereinafter provided.

Application having been made, the Commission being fully advised in the premises and finding that public convenience and necessity so require,

IT IS CRDERED:

- (1) That a certificate of public convenience and necessity be, and it hereby is, granted to Airport Service, Incorporated, a corporation, authorizing the establishment and operation of a service as a passenger stage corporation, as defined in Section 226 of the Public Utilities Code, for the transportation of persons and their baggage or express, between the points and over the routes more particularly set forth in Appendix A attached hereto and made a part hereof.
- (2) That in providing service pursuant to the certificate herein granted, there shall be compliance with the following service regulations:
  - within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted. By accepting the certificate of public convenience and necessity herein granted, applicant is placed upon notice that he will be required, among other things, to file annual reports of his operations and to comply with and observe the safety rules and other regulations of the Commission's General Order No. 98. Failure to file such reports, in such form and at such time as the Commission may direct, or to comply with and observe the provisions of General Order No. 98, may result in a cancellation of the operating authority granted by this decision.
  - b. Within sixty days after the effective date hereof, and upon not less than five days'

notice to the Commission and the public, applicant shall establish the service herein authorized and file in triplicate and concurrently make effective tariffs and time schedules satisfactory to the Commission.

(3) That Decisions Nos. 52355, 54492, 55270 be, and they hereby are, revoked and annulled.

The effective date of this order shall be ten days after the date hereof.
