Decision No. ___56735___

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the United)
States of America for authority)
to construct two tracks across) Application No. 36968
State Highway No. 78 in River-)
side County, State of California.)

SECOND SUPPLEMENTAL ORDER

By Decisions Nos. 51595 and 52412, dated June 21, 1955,
and December 28, 1955, respectively, the United States of America
was authorized to construct two wye track crossings at grade
across State Highway Route 78, in the County of Riverside. The
orders provided, among other things, that the protection should
be two Standard No. 8 flashing light signals (General Order
No. 75-B) at each crossing and that the authorization would
expire if not exercised within one year.

Applicant has filed a petition requesting reinstatement
of Decisions Nos. 51595 and 52412, stating that the crossings
have not been completed in that the flashing light signals required
by said decisions have not been installed.

The petition having been considered, it appears reason-
able to reinstate the previous authority, subject, however, to a
modification of crossing protection requirements due to changes
in conditions since the earlier authorization. Good cause
appearing,

IT IS ORDERED:

-1-

A.36968

1.   That the sixth sentence (Lines 12 and 13) in the first
paragraph of the order in Decision No. 51595, dated June 21, 1955,
be amended to read as follows:

> "Protection shall be by four Standard No. 8 flashing
> light signals (General Order No. 75-B) at each of
> the two crossings."

2.   That, except as modified herein, Decisions Nos. 51595 and
52412 are hereby reaffirmed and in full force and effect.

This authorization shall expire if not exercised within
one year, unless time be extended, or if above conditions are not
complied with.

The effective date of this order shall be twenty days
after the date hereof.

Dated at _____San Francisco_____, California, this _27th_
day of _____May_____, 1958.
