

ORIGINALDecision No. 57162

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)	
UNION PACIFIC RAILROAD COMPANY, a)	
corporation, for authority to Abandon)	Application No. 39894
37 Non-Agency Stations in the State of)	
California.)	

O P I N I O N

By this application filed March 10, 1958, applicant, a common carrier of passengers and freight by railroad, seeks authority to abandon 37 nonagency stations in the State of California. This verified application discloses that no passengers or freight business has been transacted at any of these nonagency stations for the last two years. None of the stations named in the application has any station facilities nor any industry tracks nor any team tracks, with the exception of the station of Purex Spur where there is an industry spur track, the station of San Antonio Meat Co. Spur track where there is an industry spur track, and the station of Calada where there is a set-out track.

The Commission finds, from the allegations of the verified complaint and from an informal investigation carried on by the Commission staff, that public convenience and necessity no longer require the maintenance of any of the stations named and numbered in the above-numbered application and consequently there is no further need that any of said stations continue to be listed in published station lists or in applicant's various freight and passenger tariffs. A public hearing is unnecessary.
