Application No. 40593

ORDER

Southern Pacific Company is authorized to construct, remove and rearrange tracks at grade in and along Second Street near Harrison Street in the City and County of San Francisco at the location described in the application, to be identified as portions of Crossings Nos. ED-0.61-C over Harrison Street, ED-0.545-C over Second Street near Harrison, and ED-0.54-C over Stillman Street at Second Street. Construction at said crossings shall be equal or superior to Standard No. 2 of General Order No. 72, without super-elevation and of a width to conform to the portions of the streets now graded, with tops of rails flush with the roadway. Protection shall be by existing Standard No. 1 crossing signs (General Order No. 75-B), plus one additional Standard No. 1 sign to be installed in the northeast quadrant at Crossing No. ED-0.61-C.

Construction expense shall be borne in accordance with an agreement to be entered into between the parties involved. Should the parties fail to agree, the Commission will apportion the cost by further order. Applicant shall bear the entire maintenance cost between lines two feet outside the rails.

This authorization shall expire if not exercised within one year unless time be extended or if above conditions are not complied

with. Authorization may be revoked or modified if public convenience, necessity, or safety so require.

Applicant states that the above construction, removal and rearrangement of tracks are made necessary because of construction by the State of California of the Stillman Street Ramp Overhead authorized by this Commission in Decision No. 57057 dated July 29, 1958, and that the matter is urgent in order to conform with the overall plan for the Stillman Street Overhead. Applicant asks that the authorization requested be effective immediately. Consequently the effective date of this order shall be the date hereof.

Dated at Los Angeles, California, this 9th day of December, 1958.
