BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of THE GREYHOUND COR-)
 PORATION for authority to revise)
 urban routes in the City of)
 Stockton.)

Application No. 40618

O P I N I O N

The Greyhound Corporation seeks authority to revise certain urban routes within the City of Stockton in order to conform to a recently adopted ordinance of that city which restricts directions of movement of traffic on streets over which applicant is presently authorized to operate. The application proposes that routes UR-17.02 and UR-17.04 be altered and that the former route UR-17.04 be re-established in part as route UR-17.09.

The authority requested relates only to urban route authorization and does not propose any new service not presently authorized. No new fares or rates are involved. Frequency of service or the kind or number of units of equipment to be operated will not be affected. It appears that the routes of operation proposed in this request are the most feasible and practical routes to be adopted in conformity with the new ordinance.

A public hearing does not appear to be necessary. No protest to this application has been received. After full consideration of the applicant's request, the Commission finds that public convenience and necessity require that the application be granted.
