BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of )  
J.A. CLARK DRAYING COMPANY, LTD., To )  
Establish Joint Rates With CONSOLIDATED ) Application No. 41047  
FREIGHTWAYS, INC. )

OPINION AND ORDER

Applicants are highway common carriers of general commodities. J.A. Clark Draying Company, Ltd., operates, among other places, between Los Angeles, on the one hand, and points in the Los Angeles Territory, on the other hand. Consolidated Freightways, Inc., operates, among other places, between Los Angeles, on the one hand, and points in San Francisco Territory, on the other hand.

By this application, authority is sought to establish, on less than statutory notice, through routes and joint rates between the points set forth above. The freight would be interchanged at Los Angeles. The proposed joint rates are on the same level as the minimum class rates named in Minimum Rate Tariff No. 2.

Applicants state that the joint service proposed herein will result in the establishment of an alternate route only. They state that the proposal will furnish shippers with a more expeditious service to and from points they regularly serve and that it will result in greater efficiency.

The application shows that, on or about April 17, 1959, a copy was served on competing carriers. No objection to its being granted has been received.

It appears that the establishment of the proposed through routes and joint rates, on ten days' notice, is not adverse to the public interest and should be authorized. The application will be granted. A public hearing is not necessary.

Therefore, good cause appearing,

IT IS ORDERED:

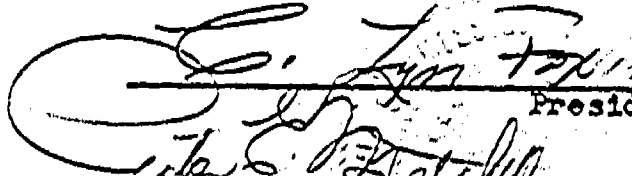

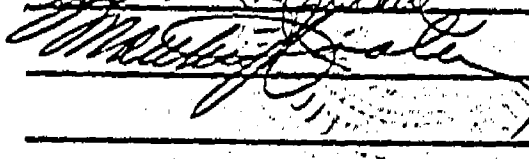

(1) That applicants are hereby authorized to establish, on not less than ten days' notice to the Commission and the public, the through routes and joint rates proposed in the above-entitled application.

(2) That the authority herein granted is limited to the extent that it may be exercised in conformity with the provisions of Article XII, Section 21, of the Constitution of the State of California and Section 460 of the Public Utilities Code and that the authority shall not be construed as relieving applicants from the operation and requirements of said provisions of the Constitution and of the Public Utilities Code to any extent whatsoever.

(3) That the authority herein granted shall expire unless exercised within ninety days after the effective date of this order.

This order shall become effective twenty days after the date hereof.

Dated at San Francisco, California, this 2nd day of June, 1959.
