Decision No. _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 WILLIG FREIGHT LINES, a corporation,)
 for a certificate of public conven-)
 ience and necessity to operate as a)
 Highway Common Carrier for the trans-)
 portation of property.)

Application No. 41102

O P I N I O N

Willig Freight Lines requests authority to extend its service as a highway common carrier to the Pacific Gas and Electric Geothermal Steam Electric Generating and Transmission Plant being constructed at The Geysers, located approximately 20 miles east of Cloverdale.

Applicant alleges that the Pacific Gas and Electric Company will require large supplies of material in the construction of the new plant and that there is no existing certificated carrier serving the area.

After consideration, the Commission is of the opinion and so finds that public convenience and necessity require the granting of the authority sought. A public hearing is not necessary.

O R D E R

Application having been filed and the Commission being informed in the premises,

IT IS ORDERED:

(1) That a certificate of public convenience and necessity is hereby granted to Willig Freight Lines authorizing the transportation of property as a highway common carrier between all points which it

is presently authorized to serve, on the one hand, and the Pacific Gas and Electric Geothermal Steam Electric Generating and Transmission Plant at The Geysers, Sonoma County, on the other hand.

(2) That First Revised Pages 2 and 3 attached hereto are hereby substituted in the place and stead of Original Pages 2 and 3 of Appendix A to Decision No. 58055.

(3) That in providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations:

- (a) Within thirty days after the effective date hereof applicant shall file a written acceptance of the certificate herein granted.
- (b) Within sixty days after the effective date hereof, and on not less than five days' notice to the Commission and to the public, applicant shall establish the service herein authorized and shall file in triplicate, and concurrently make effective, amendments to its tariffs satisfactory to the Commission to reflect the authority herein granted.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 16th day of June, 1959.

E. L. Fox
 President
