THIRD INTERIM OPINION AND ORDER

This Commission having, in Decision No. 58270, dated April 14, 1959, effective May 4, 1959, prohibited Narbonne Ranch Water Co. No. 2 "from serving water to any new customers without securing prior approval of this Commission" and,

It has come to the attention of the Commission that one M. Kaye Pedersen had secured building permits for the erection of three dwellings within the utility's service area at 2309½, 2311 and 2311½ 241st Street, Lomita, and had commenced construction of same after the effective date of Decision No. 58270, without being aware of the restriction imposed by said decision. The structures are nearing completion and it is alleged that the unavailability of public utility water service would cause serious pecuniary loss to said Pedersen.

It appearing that M. Kaye Pedersen is in urgent need of water service and has no other source thereof, and it further appearing that the utility can furnish the requested service without adversely affecting the service of existing customers,

IT IS HEREBY ORDERED THAT Narbonne Ranch Water Co. No. 2 is authorized to render public utility water service to the three residential buildings constructed by M. Kaye Pedersen and located at 2309½, 2311 and 2311½ 241st Street, Lomita.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 22nd day
of September, 1959.
