Decision No. 60188

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the application of)
 PENINSULA DELIVERY SERVICE, a cor-)
 poration, for a certificate of pub-) Application No. 41899
 lic convenience and necessity to)
 operate as a highway common carrier.)

Frank Loughran, for applicant.

O P I N I O N

Applicant is operating under permitted authority as a radial highway common carrier, a highway contract carrier and a city carrier. The applicant also operates as a highway common carrier under a certificate of public convenience and necessity granted by Decision No. 51031, in Application No. 35198, and Decision No. 53628, in Application No. 36108. These decisions authorize the transportation of general commodities, with usual exceptions, between all points within the San Francisco-East Bay Cartage Zone and between San Francisco, on the one hand, and, on the other hand, all points on U. S. 101 and 101 By-Pass to and including San Jose and between Oakland, on the one hand, and, on the other hand, Belmont, San Carlos, Redwood City, Atherton, Menlo Park, Sunnyvale, Santa Clara and San Jose.

Applicant requests a certificate of public convenience and necessity pursuant to Section 1063 of the Public Utilities Code, in lieu of, and as an extension of, applicant's existing certificate, authorizing applicant to perform transportation of general commodities with the usual exceptions, from, to and between all points specified in Appendix A attached hereto which is by this reference made a part hereof.

A public hearing was held before Examiner Edward G. Fraser, on March 22, 1960, at San Francisco, California. No one appeared in protest to the authority requested.

The evidence shows that there has been considerable recent industrial growth in the areas to which an extension now is requested. The applicant has customers who desire service into this extended area, and likewise they desire split pickups and split deliveries to be made therein.

The shipper witnesses who testified indicated that it would be beneficial to their respective companies to have applicant provide this additional service.

The evidence further discloses that applicant is able to supply the extended service. The applicant has adequate equipment, has had the necessary experience, and is financially sound.

Upon consideration of all of the evidence adduced herein, we find that public convenience and necessity require that the application be granted in the manner set forth in the ensuing order which will provide for an in lieu certificate combining all of applicant's operating authority.

Applicant is hereby placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

A public hearing having been held, and based upon the evidence adduced therein and the application and representations filed herein,

IT IS ORDERED:

1. That a certificate of public convenience and necessity is granted to Peninsula Delivery Service, a corporation, authorizing it to operate as a highway common carrier as defined by Section 213 of the Public Utilities Code for the transportation of property between the points as more particularly set forth in Appendix A attached hereto and made a part hereof.

2. That in providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations:

- a. Within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted. By accepting the certificate of public convenience and necessity herein granted, applicant is placed on notice that it will be required, among other things, to file annual reports of its operations and to comply with and observe the safety rules and other regulations of the Commission's General Order No. 99 and insurance requirements of the Commission's General Order No. 100A. Failure to file such reports, in such form and at such time as the Commission may direct, or to comply with and observe the provisions of General Orders Nos. 99 and 100A, may result in a cancellation of the operating authority granted by this decision.
- b. Within sixty days after the effective date hereof, and on not less than ten days' notice to the Commission and to the public, applicant shall establish the service herein authorized and file in triplicate, and concurrently make effective, tariffs satisfactory to the Commission.

3. That the operating authority granted by Decisions Nos. 51031 and 53628 is hereby canceled, said cancellation to become effective concurrently with the effective date of the tariff filings required by paragraph 2(b) hereof.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 24th day of May, 1960.
