Decision No. _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of
 GARDEN CITY TRANSPORTATION CO., LTD.,
 for an extended Certificate of Public
 Convenience and Necessity to operate
 as a Highway Common Carrier for the
 transportation of property.

Application No. 42120

O P I N I O N

By this application filed April 7, 1960, Garden City Transportation Co., Ltd., requests authority to extend its highway common carrier operation from Carmel to Jamesburg, serving the intermediate points of Robles Del Rio Junction, Rancho Carmelo, Rancho Tularcitas, and Tassajara Junction as an extension, to be consolidated with its present operations generally, with certain territorial exceptions, between Richmond, San Francisco, Bradley Monterey and Santa Cruz.

It is alleged that Highway Transport, Inc., which it asserts was the only common carrier serving the Carmel Valley, has discontinued all service. As a consequence of this emergency, applicant requests that it be permitted to institute this service on five days' notice.

Carmel is now served by applicant as an extension of the pickup and delivery limits of Monterey under Section 1063 of the Public Utilities Code. Applicant is not authorized to serve between Carmel and Monterey. To eliminate a gap between the proposed extension and applicant's current operative authority, the extension will be granted from Monterey to Jamesburg via Carmel and Carmel Valley.

The Commission finds that the proposed extension of service is required by public convenience and necessity. A public hearing is not necessary.

O R D E R

Application therefor having been filed and the Commission being fully advised in the premises,

IT IS ORDERED:

(1) That a certificate of public convenience and necessity is granted to Garden City Transportation Co., Ltd., authorizing it to operate as a highway common carrier, as defined in Section 213 of the California Public Utilities Code, for the transportation of general commodities as defined in Decisions Nos. 46783, 46815 and 53137 between Monterey and Jamesburg serving intermediate points via Carmel and Carmel Valley Road, as an extension of and to be consolidated with its other highway common carrier operative rights.

(2) That, in providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations:

- (a) Within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted. By accepting the certificate of public convenience and necessity herein granted, applicant is placed on notice that it will be required, among other things, to file annual reports of its operations and to comply with and observe the safety rules and other regulations of the Commission's General Order No. 99 and the insurance requirements of the Commission's General Order No. 100-A. Failure to file such reports in such form and at such time as the Commission may direct, or to comply with and observe the provisions of General Orders Nos. 99 and 100-A, may result in a cancellation of the operating authority granted by this decision.

(b) Within sixty days after the effective date hereof, and on not less than five days' notice to the Commission and to the public, applicant shall establish the service herein authorized and file in triplicate, and concurrently make effective, tariff supplements or amendments satisfactory to the Commission.

The effective date of this order shall be two days after the date hereof.

Dated at San Francisco, California, this 31st day of May, 1960.
