 extend highway common carrier service.)

Application No. 42201

O P I N I O N

California Motor Transport Co., Ltd., a corporation, seeks an extension of its operating authority to serve a point called Carmel Valley P.O. or Carmel Village, located to the east of the City of Carmel which applicant now serves. The addition will provide applicant with an additional station in an area already substantially served. Applicant alleges that Carmel Valley has been served in the past by a carrier now suspended. It knows of no others. In view of the very limited nature of the application and the necessity of replacing the service recently removed from Carmel Valley, it appears that no public hearing is necessary. The Commission finds and concludes that public convenience and necessity require that the application be granted.

O R D E R

Application having been filed, the Commission having considered the same and being of the opinion that a public hearing is not necessary; therefore,

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to California Motor Transport Co., Ltd., a corporation,

authorizing it to operate as a highway common carrier as defined by Section 213 of the Public Utilities Code for the transportation of property between the points and over the routes particularly set forth in Appendix A attached hereto and made a part hereof.

2. In providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations:

- (a) Within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted. By accepting the certificate of public convenience and necessity herein granted, applicant is placed on notice that it will be required, among other things, to file annual reports of its operations and to comply with and observe the safety rules and other regulations of the Commission's General Order No. 99 and insurance requirements of the Commission's General Order No. 100-A. Failure to file such reports, in such form and at such time as the Commission may direct, or to comply with and observe the provisions of General Orders Nos. 99 and 100-A, may result in a cancellation of the operating authority granted by this decision.
- (b) Within sixty days after the effective date hereof, and on not less than ten days' notice to the Commission and to the public, applicant shall establish the service herein authorized and file in triplicate, and concurrently make effective, tariffs satisfactory to the Commission.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 5th day of July, 1960.
