

**ORIGINAL**Decision No. 61070

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of  
SOUTHERN PACIFIC COMPANY for authority  
to reclassify its station at Honda,  
in the County of Santa Barbara, State  
of California, from Class "C" non-agency  
to Class "E" non-agency.

Application No. 42696

O R D E R

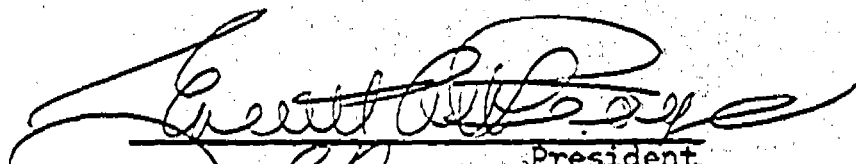

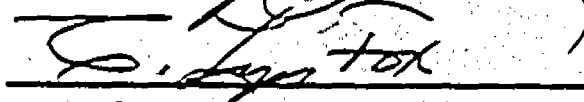

The verified application of Southern Pacific Company discloses that no freight business has been transacted at applicant's station of Honda during the past two years and its continued maintenance as a Class "C" non-agency station is not necessary. A ✓  
Class "C" non-agency station is one at which freight in carload lots or in quantities not exceeding 5,000 pounds (No piece to be larger than two men can handle) is handled.

Notice of the application has been given to various parties thought to be interested and no protests have been received. A public hearing does not appear to be necessary.

It being found that public convenience and necessity no longer require the maintenance of such service at the existing degree, Southern Pacific Company is authorized to reclassify its non-agency station of Honda, County of Santa Barbara, from Class "C" to Class "E" or a station at which freight will not be handled; to change its station records accordingly; and to amend all applicable tariffs on not less than five days' notice to the Commission and the public.

Within thirty days after reclassification as authorized herein applicant shall so notify the Commission in writing. This authorization shall expire if not exercised within one year, unless time be extended. The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 15th day of November, 1960.

  
President  
  
  
  
  
Commissioners
