Decision No. 61316

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of the ROSA WATER COMPANY to operate a water system in the vicinity of Simi, California

) Application No. 41870

Application of ROSA WATER COMPANY, a California corporation, to construct and operate a water system in the vicinity of Santa Susana, California; and to establish rates.

) Application No. 41917

In the Matter of the Application of ROSA WATER COMPANY, a corporation, for authority to issue shares of its capital stock and for authority to construct and operate a water supply line.

) Application No. 42221

FIRST SUPPLEMENTAL ORDER

Applicant was granted a certificate of public convenience and necessity to construct and operate a public utility water system in Tract No. 1099, Tract No. 1134 and the adjacent site of the Knolls School, Ventura County, by Decision No. 60439, dated July 26, 1960, in Applications Nos. 41870, 41917, and 42221.

Paragraph (6) of Decision No. 60439, supra, provides:

"(6) The certificate granted in paragraph (1) above shall not become effective until applicant shall have completed the requirements of paragraphs (3), (4) and (5), all in a manner acceptable to the Commission, and shall have so notified the Commission in writing after the effective date of this order."

Paragraphs (3), (4) and (5) of Decision No. 60439 relate to certain plant additions and improvements: paragraph (3) requires that suitable defluoridation equipment be installed and placed in operation before service is extended to Tract No. 1134 and the Knolls School; paragraph (4) requires that a suitable alternate source of water supply

be developed and placed in production for Tract No. 1134 and the school site; and paragraph (5) requires that a suitable additional supply of water be developed for Tract No. 1099.

By letters dated November 3, 1960, November 18, 1960 and November 22, 1960, applicant states that the facilities required by paragraphs (3) and (4) have been installed and will produce water which meets standards acceptable to the State Department of Public Health. Applicant further states that, in order to fully insure the quality of the finished water, a daily analysis of fluoride content of the water is made and the results recorded. Applicant's letter of October 11, 1960 indicates applicant has complied with ordering paragraph (5) of said decision. Therefore, good cause appearing,

IT IS HEREBY ORDERED that the condition imposed by paragraph (6) of Decision No. 60439, supra, has been met by applicant, compliance therewith being deemed to have been effected on the date hereof.

IT IS HEREBY FURTHER ORDERED that:

(1) Until otherwise authorized by the Commission, applicant shall maintain in operation defluoridation equipment sufficient to reduce the fluoride content of the water so that all water served at all times shall meet standards acceptable to the State Department of Public Health.

(2) Applicant shall make daily analyses of samples of the finished water processed by the equipment required by the foregoing paragraph (1) to determine the fluoride content of the water being introduced into the water system.

(3) Applicant shall maintain records of the results of the analyses required by the foregoing paragraph (2). Such records shall

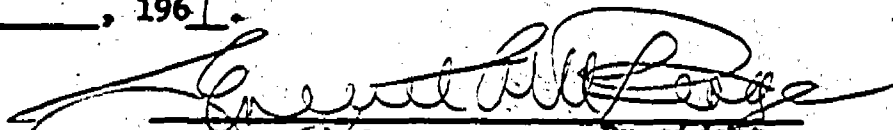

A. 41870, A. 41917, A. 42221 GH

be retained by applicant for a period of at least five years and shall be made available to representatives, agents or employees of the Commission upon reasonable notice.

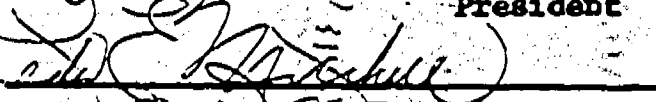

In all other respects Decision No. 60439 shall remain in full force and effect.

The effective date of this order shall be the date hereof.

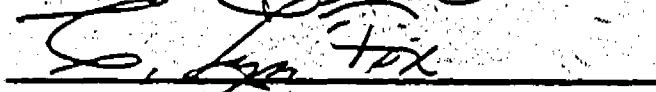

Dated at San Francisco, California, this 4th day of JANUARY, 1961.

President
