

ORIGINAL

Decision No. 51403

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of YERBA BUENA WATER COMPANY, a corporation, for an order authorizing it to extend its service area, to accept from a subdivider the improvements to be installed in said extended area, and for incorporation of said improvements into applicant's rate base.

Application No. 39469

ORDER ON PETITION FOR MODIFICATION

It appearing that Decision No. 59493 provided, in part, as follows:

"(1) That a certificate of public convenience and necessity be, and it hereby is, granted to Yerba Buena Water Company authorizing it to extend service as a water corporation to that portion of Tentative Tract No. 1223 in Ventura County, California, outlined in orange on Exhibit No. 6 herein, subject to the following condition:

"(a) That the certificate herein granted shall not become effective until applicant shall have satisfactorily demonstrated to this Commission that it has water production sources capable of safely yielding at least 70 gallons per minute of water acceptable in quality to the Department of Public Health.

"(2) That the authority herein granted will expire if not exercised within one year from the effective date of this order.", and

It further appearing that on January 17, 1961, applicant filed a petition for modification herein according to the allegations of which that portion of Tentative Tract No. 1223 above named was realigned in order to comply with the requirements of the County of Ventura, and that the only substantial change worked by such

realignment is that such tract is no longer immediately contiguous to Pacific Coast Highway, and

It further appearing that applicant has requested that such realigned area as described on a map attached to this petition for modification as Exhibit A be substituted for and in place of the service area referred to above, and

It further appearing that applicant has requested an extension of time within which to exercise the authority granted by Decision No. 59493,

Now, Therefore, IT IS ORDERED that ordering paragraphs (1) and (2) of Decision No. 59493 are amended as follows:

"(1) That a certificate of public convenience and necessity be, and it hereby is, granted to Yerba Buena Water Company authorizing it to extend service as a water corporation to that portion of Tentative Tract No. 1223 in Ventura County, California, outlined in red on Exhibit A attached to Petition for Modification herein, except for that area therein lying between Ellice Street and State Highway (U.S. 101 Alternate), subject to the following condition:

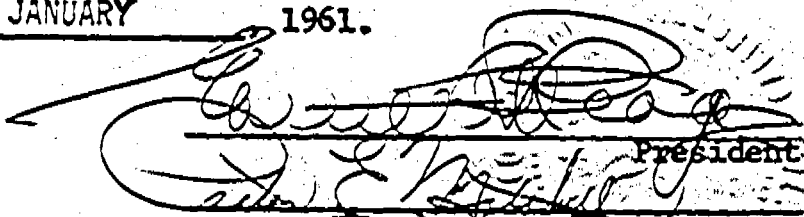

"(a) That the certificate herein granted shall not become effective until applicant shall have satisfactorily demonstrated to this Commission that it has water production sources capable of safely yielding at least 78 gallons per minute of water acceptable in quality to the Department of Public Health.

"(2) That the authority herein granted will expire if not exercised on or before May 1, 1961."

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this

24th day of JANUARY 1961.

President
