Application No. 39345

Application No. 36538

SUPPLEMENTAL OPINION AND ORDER

By the decision hereinafter identified G & G Trucking Company, a corporation, acquired a certificate which is described in part by reference to a drayage area description contained in a minimum rate tariff. As the certificate is worded, some question may arise whether any amendment to the drayage area description of the minimum rate tariff would be incorporated automatically into this certificate.

It is apparent that any changes made by the Commission in the drayage area descriptions set forth in the minimum rate tariffs are predicated on minimum rate considerations and not public convenience and necessity. On the other hand, any changes in a highway common carrier's certificate of public convenience and necessity must be based solely on public convenience and necessity. It is the Commission's conclusion that the drayage area referred to in the certificate is the corresponding drayage area as described in the minimum rate tariff at the time the certificate was issued. Any other interpretation would result in a certificate that could be expanded or contracted
