and other articles transported for)
General Mills, Inc. under rights granted)
under Decision No. 60447 of July 26, 1960.)

OPINION AND ORDER

By Decision No. 60447, dated July 26, 1960, in Application No. 42284, Keeney Truck Lines, Inc., Grain Products Division, was authorized, as a permit carrier, to assess monthly vehicle unit rates and charges which are less than the established minimum rates and charges between specified points in southern California for General Mills, Inc. The authority is scheduled to expire July 31, 1961.

By this application, filed May 23, 1961, as amended, authority is sought to continue to charge rates less than the minimum rates and charges. The sought rates are approximately 12 per-¹cent higher than those currently authorized.

Data submitted with the application indicates that applicant's operation has been conducted at a profit. The application, as amended, states that the higher rates proposed which applicant has been assessing since September, 1960 have offset increases in labor costs.

¹ No authority for the increase is required from this Commission, inasmuch as applicant is a permitted carrier for which only minimum rates have been established. Authority to continue the use of such rates beyond July 31, 1961, is required, however, inasmuch as the rates differ from the minimum rates otherwise applicable.

The Transportation Division staff has reviewed the verified application and has recommended that it be granted.

In the circumstances, it appears, and the Commission finds, that the proposed rates are reasonable and consistent with the public interest. A public hearing is not necessary. The application will be granted.

Therefore, good cause appearing,

IT IS ORDERED:

(1) That Keeney Truck Lines, Inc., Grain Products Division, operating as a highway contract carrier and as a city carrier, is hereby authorized to transport all commodities for General Mills, Inc., at rates and charges which differ from those established as minimum but not less than those specified between the points shown in and subject to the rules and regulations set forth in Appendix "A" attached hereto and by this reference made a part hereof.

(2) That the authority herein granted shall on and after July 31, 1961, supersede the authority granted by Decision No. 60447, and shall expire on July 31, 1962, unless sooner canceled, changed or extended by order of the Commission.

The effective date of this order shall be twenty days from the date hereof.

Dated at San Francisco, California, this 30th day of

June 1961.
