Decision No. _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of THE GREYHOUND CORPORATION)
for authority to conduct Special Operations)
between Stockdale Junction and Stockdale,)
in Kern County.)

Application No. 43608
(Filed July 18, 1961)

OPINION AND ORDER

The Greyhound Corporation requests authority to extend service to Stockdale located southwest of Bakersfield, four miles west of U. S. Highway 99.

It is alleged that the Del Webb Company is developing housing for retired people at Stockdale; that applicant has received requests for transportation of groups of prospective purchasers, on the individual-fare basis, with times of departure from Los Angeles to be specified by the developer; that the passengers will be gathered together by the developer of the project through advertising which will include information on the availability of such transportation; and that since applicant is presently authorized to operate along U. S. Highway 99 between Los Angeles and Bakersfield the proposed extension will require certification between Stockdale Junction and Stockdale only.

After consideration the Commission finds and concludes that public convenience and necessity require the granting of the authority sought. A public hearing is not necessary. Therefore,

IT IS ORDERED that:

1. A certificate of public convenience and necessity is hereby granted to The Greyhound Corporation, authorizing the establishment and operation of service as a passenger stage corporation, as that

term is defined in Section 226 of the Public Utilities Code, for the transportation of passengers, baggage and express between the points and over the routes set forth in Fourth Revised Page 34-A, attached hereto, as an extension and enlargement of, consolidation with and subject to all the limitations and restrictions set forth in the certificate granted by Decision No. 55893 and in particular subject to the provisions set forth in Section 3 of Appendix A thereof.

2. Appendix A of Decision No. 55893 is hereby amended by incorporating Fourth Revised Page 34-A in revision of Third Revised Page 34-A.

3. In providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations:

- a. Within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted.
- b. Within one hundred twenty days after the effective date hereof, and on not less than ten days' notice to the Commission and to the public, applicant shall establish the service herein authorized and file in triplicate, and concurrently make effective, tariffs and timetables satisfactory to the Commission.

The effective date of this order shall be twenty days after the date hereof.

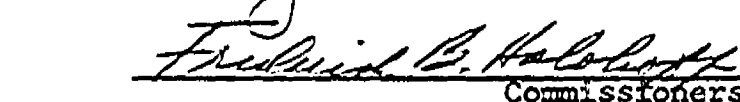

Dated at San Francisco, California, this 22nd day of August, 1961.

President

Commissioners
